Johnston, 2017-01-26 An engaging and at times sobering look at the coexistence of humans and animals in

the 21st century and how their sometimes disparate needs affect environments politics economies and culture worldwide There is an urgent need to understand human animal interactions and relations as we become increasingly aware of our devastating impact on the natural resources needed for the survival of all animal species This timely reference explores such topics as climate change and biodiversity the impact of animal domestication and industrial farming on local and global ecosystems and the impact of human consumption of wild species for food entertainment medicine and social status This volume also explores the role of pets in our lives advocacy movements on behalf of animals and the role of animals in art and media culture Authors Julie Urbanik and Connie L Johnston introduce the concept of animal geography present different aspects of human animal relationships worldwide and highlight the importance of examining these interconnections Alphabetical entries illustrate key relationships concepts practices and animal species The book concludes with a comprehensive appendix of select excerpts from key primary source documents relating to animals and a glossary **Meat**

**Makes People Powerful** Wilson J. Warren, 2018-02-15 From large scale cattle farming to water pollution meat more than any other food has had an enormous impact on our environment Historically Americans have been among the most avid meat eaters in the world but long before that meat was not even considered a key ingredient in most civilizations diets Labor historian Wilson Warren who has studied the meat industry for more than a decade provides this global history of meat to help us understand how it entered the daily diet and at what costs and benefits to society Spanning from the nineteenth century to current and future trends Warren walks us through the economic theory of food the discovery of protein the Japanese eugenics debate around meat and the environmental impact of livestock among other topics Through his comprehensive multifaceted research he provides readers with the political economic social and cultural factors behind meat consumption over the last two centuries With a special focus on East Asia **Meat Makes People Powerful** reveals how national governments regulated and oversaw meat production helping transform virtually vegetarian cultures into major meat consumers at record speed As more and more Americans pay attention to the sources of the meat they consume Warren s compelling study will help them not only better understand the industry but also make more informed personal choices Providing an international perspective that will appeal to scholars and nutritionists alike this timely examination will forever change the way you see the food on your plate **Why We Love and Exploit Animals** Kristof Dhont, Gordon

Hodson, 2019-11-08 This unique book brings together research and theorizing on human animal relations animal advocacy and the factors underlying exploitative attitudes and behaviors towards animals Why do we both love and exploit animals Assembling some of the world s leading academics and with insights and experiences gleaned from those on the front lines of animal advocacy this pioneering collection breaks new ground synthesizing scientific perspectives and empirical findings The authors show the complexities and paradoxes in human animal relations and reveal the factors shaping compassionate versus exploitative attitudes and behaviors towards animals Exploring topical issues such as meat consumption intensive farming

speciesism and effective animal advocacy this book demonstrates how we both value and devalue animals how we can address animal suffering and how our thinking about animals is connected to our thinking about human intergroup relations and the dehumanization of human groups This is essential reading for students scholars and professionals in the social and behavioral sciences interested in human animal relations and will also strongly appeal to members of animal rights organizations animal rights advocates policy makers and charity workers

**Modern Ethics in 77 Arguments** Peter Catapano, Simon Critchley, 2017-08-22 From the editors of the widely influential The Stone Reader comes the most thorough and engaging guide to modern ethical thought available Since 2010 The Stone an enormously popular column in the New York Times has interpreted and reinterpreted age old inquiries that speak to our contemporary condition Having done for modern ethics what The Stone Reader did for modern philosophy this portable volume features an assortment of essays culled from the archives of an online Times series that has attracted millions of readers through accessible examinations of longstanding topics like consciousness religious belief and morality Presenting the most thorough and accessible guide to modern ethical thought available New York Times editor Peter Catapano and best selling philosopher Simon Critchley curate a fascinating culture of debate and deliberation that would have otherwise gone undiscovered From questions of gun control and drone warfare to the morals of vegetarianism and marriage this book emancipates ethics from the province of ivory tower classrooms to become a centerpiece of discussions for years to come

[The Routledge Handbook of Animal Ethics](#) Bob Fischer, 2019-12-06 There isn't one conversation about animal ethics Instead there are several important ones that are scattered across many disciplines This volume both surveys the field of animal ethics and draws professional philosophers graduate students and undergraduates more deeply into the discussions that are happening outside of philosophy departments To that end the volume contains more nonphilosophers than philosophers explicitly inviting scholars from other fields such as animal science ecology economics psychology law environmental science and applied biology among others to bring their own disciplinary resources to bear on matters that affect animals The Routledge Handbook of Animal Ethics is composed of 44 chapters all appearing in print here for the first time and organized into the following six sections I Thinking About Animals II Animal Agriculture and Hunting III Animal Research and Genetic Engineering IV Companion Animals V Wild Animals Conservation Management and Ethics VI Animal Activism The chapters are brief and they have been written in a way that is accessible to serious undergraduate students regardless of their field of study The volume covers everything from animal cognition to the state of current fisheries from genetic modification to intersection animal activism It is a resource designed for anyone interested in the moral issues that emerge from human interactions with animals

**The Routledge History of American Foodways** Michael D. Wise, Jennifer Jensen Wallach, 2016-02-12 The Routledge History of American Foodways provides an important overview of the main themes surrounding the history of food in the Americas from the pre colonial era to the present day By broadly incorporating the latest food studies research the book explores the major

advances that have taken place in the past few decades in this crucial field. The volume is composed of four parts. The first part explores the significant developments in US food history in one of five time periods to situate the topical and thematic chapters to follow. The second part examines the key ingredients in the American diet throughout time, allowing authors to analyze many of these foods as items that originated in or dramatically impacted the Americas as a whole and not just the United States. The third part focuses on how these ingredients have been transformed into foods identified with the American diet and on how Americans have produced and presented these foods over the last four centuries. The final section explores how food practices are a means of embodying ideas about identity, showing how food choices, preferences, and stereotypes have been used to create and maintain ideas of difference. Including essays on all the key topics and issues, *The Routledge History of American Foodways* comprises work from a leading group of scholars and presents a comprehensive survey of the current state of the field. It will be essential reading for all those interested in the history of food in American culture.

*The Reducetarian Solution* Brian Kateman, 2017-04-18 Brian Kateman coined the term Reducetarian, a person who is deliberately reducing his or her consumption of meat, and a global movement was born. In this book, Kateman, the founder of the Reducetarian Foundation, presents more than 70 original essays from influential thinkers on how the simple act of cutting 10% or more of the meat from one's diet can transform the life of the reader, animals, and the planet. This book features contributions from such luminaries as Seth Godin, Joel Fuhrman, Victoria Moran, Jeffrey Sachs, Bill McKibben, Naomi Oreskes, Peter Singer, and others. With over 40 vegan, vegetarian, and less meat recipes from bestselling cookbook author Pat Crocker, as well as tons of practical tips for reducing the meat in your diet (for example, skip eating meat with dinner if you ate it with lunch; replace your favorite egg omelet with a tofu scramble; choose a veggie burrito instead of a beef burrito; declare a meatless day of the week), *The Reducetarian Solution* is a life not to mention planet-saving book.

*The Main Street Vegan Academy Cookbook* Victoria Moran, JL Fields, 2017-12-19 When someone goes vegan on Park Avenue or Beverly Drive, they have a private chef and a personal assistant to do the troubleshooting. When we make the shift on Main Street, we could use some help, too. For nearly six years, acclaimed author, speaker, podcaster, and Main Street Vegan Academy director Victoria Moran has trained individuals to become vegan lifestyle coaches and educators. Now, Victoria has teamed up with one of her Academy alums, turned faculty member, cookbook author, culinary instructor, and radio host JL Fields, to bring that very same coaching to you. In *The Main Street Vegan Academy Cookbook*, Victoria and JL, along with over a hundred certified vegan lifestyle coaches, join you in the kitchen as you discover more than 100 of their favorite plant-sourced recipes. Whether you're new to the diet or a seasoned plant-based eater, vegan or just veg-curious, their tips, tricks, shortcuts, and strategies will transform your cooking, your eating, and your life. Inside, you'll find wholesome, delectable, and accessible recipes like PB & J, a complete guide to going vegan, FAQs, troubleshooting, and menu plans, to inspiration and innovations for navigating the culinary, nutritional, and social landscape of plant-based eating. Embrace a healthier, more compassionate you with Victoria & JL.
