The Witch of Lime Street David Jaher, 2016-10-11 History comes alive in this textured account of the rivalry between Harry Houdini and the so called Witch of Lime Street whose iconic lives intersected at a time when science was on the verge of embracing the paranormal The 1920s are famous as the golden age of jazz and glamour but it was also an era of fevered yearning for communion with the spirit world after the loss of tens of millions in the First World War and the Spanish flu epidemic A desperate search for reunion with dead loved ones precipitated a tidal wave of self proclaimed psychics and as reputable media sought stories on occult phenomena mediums became celebrities Against this backdrop in 1924 the pretty wife of a distinguished Boston surgeon came to embody the raging national debate over Spiritualism a movement devoted to communication with the dead Reporters dubbed her the blonde Witch of Lime Street but she was known to her followers simply as Margery Her most vocal advocate was none other than Sherlock Holmes creator Sir Arthur Conan Doyle who believed so thoroughly in Margery's powers that he urged her to enter a controversial contest sponsored by Scientific American and offering a large cash prize to the first medium declared authentic by its impressive five man investigative committee Admired for both her exceptional charm and her dazzling effects Margery was the best hope for the psychic practice to be empirically verified Her supernatural gifts beguiled four of the judges There was only one left to convince the acclaimed escape artist Harry Houdini David Jaher's extraordinary debut culminates in the showdown between Houdini a relentless unmasker of charlatans and Margery the nation's most credible spirit medium The Witch of Lime Street the first book to capture their electric public rivalry and the competition that brought them into each other's orbit returns us

To Be Indian Joy Porter,2023-08-04 Born on the Seneca Indian Reservation in New York State Arthur Caswell Parker 1881 1955 was a prominent intellectual leader both within and outside tribal circles Of mixed Iroquois Seneca and Anglican descent Parker was also a controversial figure recognized as an advocate for Native Americans but criticized for his assimilationist stance In this exhaustively researched biography the first book length examination of Parker s life and career Joy Porter explores complex issues of Indian identity that are as relevant today as in Parker s time From childhood on Parker learned from his well connected family how to straddle both Indian and white worlds His great uncle Ely S Parker was Commissioner of Indian Affairs under Ulysses S Grant the first Native American to hold the position Influenced by family role models and a strong formal education Parker who became director of the Rochester Museum was best known for his work as a museologist a word he coined Porter shows that although Parker achieved success within the dominant Euro American culture he was never entirely at ease with his role as assimilated Indian and voiced frustration at having to play Indian to be Indian In expressing this frustration Parker articulated a challenging predicament for twentieth century Indians the need to negotiate imposed stereotypes to find ways to transcend those stereotypes and to assert an identity rooted in the present rather than in the past He and Him Claude Britt, Jr.,2012-08 He and Him is an autobiography dealing with both

psychology and archaeology in the author's life. He was born during the Great Depression. His parents were an Ohio farmerette and a man from the Tennessee mountains who had become an alcoholic on moonshine whiskey. It was a dysfunctional family from the start. The mom soon developed very serious emotional problems apparently because she wasn't satisfied with the man whom she had married. When the author was a six-year-old boy, she told him that she planned to take him and leave his dad. However, she did the exact opposite and had more kids. Upon adding more offspring to the household, the author, then seven years old, became the victim of terrible physical and emotional abuse as well as complete neglect. From the age of seven, the author had to essentially raise himself. He tried to avoid his parents as much as possible by spending his days in the fields and meadows by himself, collecting butterflies, pretty rocks, and looking for prehistoric Indian arrowheads. After finding a few Indian arrowheads on farms in Ohio, he started a collection of Indian arrowheads and other artifacts at a very young age. His collection eventually turned into a very renowned private museum as he got a little older. When the author was almost thirteen years old, his parents quit farming and started operating their own country store in a different community. Chapter 3 in this book describes life in country stores in Ohio during the 1940s and 1950s. The author lived in such a country store environment until he turned eighteen and went away to college. He was the first of any of his relatives to ever go away to college. His mother furnished him money to attend college, but he did it completely on his own with absolutely no family encouragement or support to get a degree. From the time that the author started getting educated, his mom refused to ever call him by his given name. She only referred to him as either He or Him. Others in the family soon became full of covetousness towards him because they perceived that he had advantages which they didn't have. Competitive jealousy of others in the household mounted their believing that they had to try to outdo the educated member of the family. A long drawn-out bitter family war against the author ensued. Disrespect for the author's higher education continued in later years by not only the third generation but also by in-laws who didn't even know the author when he was in college. After receiving both a BS degree and an MA degree in geology with a master's thesis dealing with archaeology of Archaic Indian sites near his hometown, the author took a temporary summer job as a national park ranger at Canyon de Chelly National Monument at Chinle, Arizona. Canyon de Chelly is located in the center of the vast Navajo Indian Reservation. Getting to live and work in such a beautiful natural area was like a dream come true. That first summer's work at Canyon de Chelly motivated the author to eventually work as a seasonal park ranger in six other national parks and monuments. After working at Canyon de Chelly for one summer, the author ended up going back to Arizona where he lived for ten more years. He married a woman in Kansas who he hardly even knew; then he went to the University of Arizona where he spent two years working towards a PhD degree. After that, he and his wife spent eight more years back on the Navajo Indian Reservation. During those years on the reservation, he taught Navajo Indian children on a substitute teaching certificate. It was a full-time job in the winter. Almost all of his students were Navajo Indians. He taught all grade levels from kindergarten through high school. Chapters 6, 7, and 8 of
