Literary Variety and the Writing of History in Britain's Long Twelfth Century Jacqueline M. Burek, 2023 A survey of the different literary forms adopted by history writers after the Conquest exploring why and for what effects they were used Histories of Britain composed during the twelfth century renaissance display a remarkable amount of literary variety Latin *varietas* Furthermore British historians writing after the Norman Conquest often draw attention to the differing forms of their texts But why would historians of this period associate literary variety with the work of history writing Drawing on theories of literary variety found in classical and medieval rhetoric this book traces how British writers came to believe that *varietas* could help them construct comprehensive continuous accounts of Britain s past It shows how Latin prose historians such as William of Malmesbury Henry of Huntingdon and Geoffrey of Monmouth filled their texts with a diverse array of literary forms which they carefully selected and ordered in accordance with their broader historiographical aims The pronounced literary variety of these influential histories inspired some Middle English verse chroniclers including La amon and Robert Mannyng to adopt similar principles in their vernacular poetry By uncovering the rhetorical and historiographical theories beneath their literary variety this book provides a new framework for interpreting the stylistic and organizational choices of medieval historians
