**The Mind in the Making** James Harvey Robinson, 2014-11-03 A book to awaken every reader to a real understanding of why he thinks and acts as he does It is the well known historian s straightforward account of how our intelligence has

evolved into the mental habits of modern life No book for popular reading shows so graphically that our thinking remains medieval in a world that has become complex and modern It will show you whether your thinking is ahead of the times or behind them The Mind in the Making James Harvey Robinson,1921 *MIND IN THE MAKING* JAMES HARVEY. ROBINSON,2018 The Mind in the Making. (Second Edition.). James Harvey ROBINSON,1949 **The Mind in the Making** James Harvey Robinson,2020-04-19 The Mind in the Making is a book to awaken every reader to a real understanding of why he thinks and acts as he does It is the well known historian s straightforward account of how our intelligence has evolved into the mental habits of modern life No book for popular reading shows so graphically that our thinking remains medieval in a world that has become complex and modern It will show you whether your thinking is ahead of the times or behind them If some magical transformation could be produced in men s ways of looking at themselves and their fellows no inconsiderable part of the evils which now afflict society would vanish away or remedy themselves automatically If the majority of influential persons held the opinions and occupied the point of view that a few rather uninfluential people now do there would for instance be no likelihood of another great war the whole problem of labor and capital would be transformed and attenuated national arrogance race animosity political corruption and inefficiency would all be reduced below the danger point The Mind in the Making James Harvey Robinson,1929 The Message of the Mind in Neo-Confucianism William Theodore De Bary,Wm. Theodore De Bary,1989 Based on lectures delivered at the Coll ge de France in May 1986 **Minds in Motion** Anne M. Thell,2017-08-31 The central claim of Minds in Motion is that British travel writing of the long eighteenth century functions as an epistemological playing field where authors test empiricist models of engagement with the world while simultaneously seeking out the role of the self and the imagination in producing knowledge Whether exploring the relationship between the senses and the mind the narrative viability of experimental detachment or the literary dynamics of virtual witnessing eighteenth century travel authors persistently confront their positionality and raise difficult questions about the nature and value of first hand experience In one way or another they also complicate empiricist ideals by exploring the limits of individual perception and the role of the imagination in generating and relating knowledge While the genre is often viewed as either numbingly documentary or non literary and commercial travel literature actually operates at the front line of the period s intellectual developments illustrating both how individual writers grapple with philosophical ideals and how these ideals filter into the lives of ordinary people Indeed travel literature directly engages the scientific and philosophical concerns of the period while it is also widely avidly read as such it offers models for cognitive and rhetorical practices that are evaluated and either embraced or rejected by readers in a process of identification not unlike that which occurs in early English fiction Moreover because eighteenth century travel literature is so crucial to the development of so many fields from botany to the novel it illustrates vividly the divisive energies of discipline and genre formation while also archiving the shared aims and methods of what will become discrete fields of study Travelogues as

diverse as Margaret Cavendish's *Blazing World* 1666 and Samuel Johnson's *Journey to the Western Islands of Scotland* 1775 reveal the epistemological circuitry of the eighteenth century and historicize the absorption of the philosophical tendencies that have come to define modernity
