The Odd Women Illustrated:

The Odd Women Illustrated George Gissing, 2021-02-07 The Odd Women is an 1893 novel by the English novelist George Gissing Its themes are the role of women in society marriage morals and the early feminist movement [The Odd Women \(Illustrated Edition\)](#) George Gissing, 2021-09-18 The Odd Women is an 1893 novel by the English novelist George Gissing Its themes are the role of women in society marriage morals and the early feminist movement [The Odd Women](#) George Gissing, 1998-02-23 George Gissing's The Odd Women dramatizes key issues relating to class and gender in late Victorian culture the changing relationship between the sexes the social impact of odd or redundant women the cultural impact of the new woman and the opportunities for and conditions of employment in the expanding service sector of the economy At the heart of these issues as many late Victorians saw them was a problem of the imbalance in the ratio of men to women in the population There were more females than males which meant that more and more women would be left unmarried they would be odd or redundant and would be forced to be independent and to find work to support themselves In the Broadview edition Gissing's text is carefully annotated and accompanied by a range of documents from the period that help to lay out the context in which the book was written In Gissing's story Virginia Madden and her two sisters are confronted upon the death of their father with sudden impoverishment Without training for employment and desperate to maintain middle class respectability they face a daunting struggle In Rhoda Nunn a strong feminist Gissing also presents a strong character who draws attention overtly to the issues behind the novel The Odd Women is one of the most important social novels of the late nineteenth century **The New Man, Masculinity and Marriage in the Victorian Novel** Tara MacDonald, 2015-10-06 By tracing the rise of the New Man alongside novelistic changes in the representations of marriage MacDonald shows how this figure encouraged Victorian writers to reassess masculine behaviour and to re imagine the marriage plot in light of wider social changes She finds examples in novels by Dickens Anne Bront George Eliot and George Gissing **George Gissing, the Working Woman, and Urban Culture** Emma Liggins, 2017-09-29 George Gissing's work reflects his observations of fin de siècle London life Influenced by the French naturalist school his realist representations of urban culture testify to the significance of the city for the development of new class and gender identities particularly for women Liggins's study which considers standard texts such as The Odd Women New Grub Street and The Nether World as well as lesser known short works examines Gissing's fiction in relation to the formation of these new identities focusing specifically on debates about the working woman From the 1880s onward a new genre of urban fiction increasingly focused on work as a key aspect of the modern woman's identity elements of which were developed in the New Woman fiction of the 1890s Showing his fascination with the working woman and her narrative potential Gissing portrays women from a wide variety of occupations ranging from factory girls actresses prostitutes and shop girls to writers teachers clerks and musicians Liggins argues that by placing the working woman at the center of his narratives rather than at the margins Gissing made an important contribution to the

development of urban fiction which increasingly reflected current debates about women's presence in the city *Feminist Realism at the Fin de Siècle* Molly Youngkin, 2007 Molly Youngkin takes on a major literary problem of the turn of the century: Was the transition from the Victorian novel to the modern novel enabled by antirealist or realist narrative strategies? To answer this question, Youngkin analyzes book reviews that appeared in two prominent feminist periodicals circulated during the late Victorian era: *Shafts* and *The Woman's Herald*. Through reviews of the works of important male and female authors of the decade—Thomas Hardy, Sarah Grand, George Gissing, Mona Caird, George Meredith, M. J. Dowse, George Moore, and Henrietta Stannard—these periodicals developed a feminist realist aesthetic that drew on three aspects of woman's agency: consciousness, spoken word, and action, and emphasized corresponding narrative strategies: internal perspective, dialogue, and description of characters' actions. Still, these periodicals privileged consciousness over spoken word and action, and by doing so encouraged authors to push the boundaries of traditional realism and anticipate the modernist aesthetic. By acknowledging the role of the woman's press in the development of the novel, this book revises our understanding of the transition from Victorianism to modernism, which is often characterized as antirealist. Late Victorian authors working within the realist tradition also contributed to this transition, particularly through their engagement with feminist realism. Youngkin deftly illustrates this transition and, in so doing, proves that it cannot be attributed to antirealist narrative strategies alone.

Roomscape Susan David Bernstein, 2013-03-14 Examines the Reading Room of the British Museum using documentary, theoretical, historical, and literary sources. *Roomscape* explores a specific site, the Reading Room of the British Museum, as a space of imaginative potential in relation to the emergence of modern women writers in Victorian and early twentieth-century London. Drawing on

archival materials *Roomscape* is the first study to integrate documentary historical and literary sources to examine the significance of this space and its resources for women who wrote translations poetry and fiction This book challenges an assessment of the Reading Room of the British Museum as a bastion of class and gender privilege an image established by Virginia Woolf's *A Room of One's Own* *Roomscape* also questions the value of privacy and autonomy in constructions of female authorship Rather than viewing reading and writing as solitary *Roomscape* investigates the public social and spatial dimensions of literary production The implications of this study reach into the current digital era and its transformations of practices of reading writing and archiving Along with an appendix of notable readers at the British Museum from the last two centuries the book contributes to scholarship on George Eliot Amy Levy Eleanor Marx Clementina Black Constance Black Garnett Christina Rossetti Mathilde Blind and Virginia Woolf

The Aesthetics of Senescence Andrea Charise, 2020-01-01 Investigates how nineteenth century British literature grappled with a new understanding of aging as both an individual and collective experience The *Aesthetics of Senescence* investigates how chronological age has come to possess far reaching ideological ethical and aesthetic implications both in the past and present Andrea Charise argues that authors of the nineteenth century used the imaginative resources of literature to engage with an unprecedented climate of crisis associated with growing old Marshalling a great variety of canonical authors including William Godwin Mary Shelley George Eliot Anthony Trollope and George Gissing as well as less familiar writings by George Henry Lewes Christoph Wilhelm Hufeland Agnes Strickland and Max Nordau Charise demonstrates why the imaginative capacity of writing became an interdisciplinary crucible for testing what it meant to grow old at a time of profound cultural upheaval Charise's grounding in medicine political history literature and genre offers a fresh original thoroughly interdisciplinary analysis of nineteenth century aging and age theory as well as new insights into the rise of the novel a genre usually thought of as affiliated almost entirely with the young or middle aged Charise's brilliantly argued clearly written book is an important intervention in nineteenth century British literature age studies and medical humanities It brings these areas of inquiry together in what seems a seamless way as if they have always traveled together or ought to have Through an investigation of what she calls the aesthetics of embodiment that shaped nineteenth century visions of aging Charise has given us an original and groundbreaking study of literary historical anthropological and philosophical texts

Modernism, Labour and Selfhood in British Literature and Culture, 1890-1930 Morag Shiach, 2004-02-26 Shiach examines the ways in which labour was experienced and represented between 1890 and 1930 There is a critical tradition in literary and historical studies that sees the impact of modernity on human labour in terms of intensification and alienation Shiach however explores a series of efforts to articulate the relations between labour and selfhood within modernism Through readings of Sylvia Pankhurst and D H Lawrence Shiach shows how labour underpins the political and textual innovations of the period This

Consciousness of the injustice of class and gender based discrimination was growing Meanwhile bias against nonwhite peoples was worsening The British used scientific racism to justify their relentless expansion in Africa and Asia Viewing Victorian literature through the lens of these social changes gives the modern reader a fresh way to interpret the novels and to appreciate their relevance to contemporary issues Nineteenth century novelists deployed realism satire and the bildungsroman to resist or support leading ideologies of their time including the separate spheres doctrine and British supremacism Each chapter is an elaboration of the author's university lectures about Victorian classics The tone is scholarly yet conversational directed to the undergraduate student as well as the general reader or Victoriaphile The text presents concepts in interdisciplinary cultural studies discusses the uses of genre for rhetorical and social purposes and exposes paradoxes of the era The coherent style abundant examples discussion questions and literary glossary make this book a valuable supplement for readers of the Victorian novel
