Architecture Peter Belohlavek, 2011-09-07 Introduction to Unicist Business Architecture is a fundamental book for individuals who are responsible for designing modeling or organizing businesses It provides an introduction to a structural functionalist approach to architecture that allows managing the integration of the ontological structures of a business to deal with it as an adaptive system with the functional operational processes that makes a business happen It is part of the Unicist Architecture Collection of Peter Belohlavek which synthesized the structural functionalist approach to business architecture It covers among other subjects analogy between functional architecture IT architecture and Business architecture Unicist Business Architecture the unified field businesses managed as unified fields transforming unified fields into operational actions unicist ontology of the apprehension of a unified field in business the nature of adaptive systems for work taxonomy for the design of an adaptive system s work process unicist business process modeling unicist business objects design Unicist Back2Back methodology unicist design taxonomy the unicist ontology of figurative communication at work hyperrealism in business business platforms an application of Unicist Business Architecture 5 click strategy an example of the use of a unified field in business *Introduction to Unicist Econometrics* Peter Belohlavek, 2007-10 Ceteris Paribus is a natural response to conjunctural economic decisions The unicist ontology of evolution provided the structural conceptual tools to develop economic applications Unicist econometrics provides the structural knowledge to build long term economic forecasts and short term analysis to predict evolution It destroys the ceteris paribus thinking as a fallacious short cut to develop solutions that sound logical Unicist Econometrics provides the reliable models to diagnose and influence micro and macroeconomics melting their boundaries in a sole unified field human s economic behavior The integration of the unicist approach with conventional econometrics made diagnostics of countries markets and businesses highly reliable While Fundamentals provide the limits of the actual possibilities and catalyze trends Technical Analysis provides the information that ensures short term prognostics and the monitoring of the triggers and drivers of evolution The unicist approach helps to define the possibilities and conventional econometrics defines the operational probabilities Unicist Econometrics solved the limitation of the dualistic approach of econometrics It included an integrative dimension based on the unicist ontology of evolution that made an approach to the nature of economics possible It includes the unicist ontology of price elasticity of demand that has been researched to influence its nature *Unicist Ontology of History* Peter Belohlavek, 2008-05 The unicist ontology of history

set a breakthrough in historical research Nowadays there are two models to structure the logic of historical information the dialectic and the unicist double dialectic The unicist approach to history seeks for the natural roots of cultural evolution and avoids ideological contamination in history This book provides the Unicist Methodology for Historical Research It includes the unicist ontology of history that has been researched to understand the nature of evolution History is supposed to deliver secure knowledge to be aware of the reality one is living in in order to be able to live in an adapted way The unicist approach to history besides delivering the ontology for historical research demonstrates the fallacy of the dialectic model The unicist historical research model is based on the unicist ontology of evolution considering that the structure thesis antithesis synthesis is inexistent and that the simple dialectic is an over simplification to foster voluntarism The unicist ontology of evolution considers that natural evolution is ruled by a double dialectic behavior 1 Thesis antithesis and 2 Thesis homeostasis The integration of both dialectics defines the ontological structure of a given reality The unicist methodology of historical research is based on the analysis of events and their inclusion in an ontological structure This explains history integrating the descriptive interpretative anthropological and ontological approaches This methodology considers ideologies as a part of the structure but avoids ideological contamination in history

The Natural Organization of Outsourcing and Insourcing Peter Belohlavek, 2007-12 This book provides executives with the necessary questions to approach outsourcing and insourcing decisions Technological evolution brought about new ways to approach productive processes Outsourcing or Insourcing is a question of convenience in the short and long term By understanding the nature of outsourcing and by having the necessary questions you will be able to build the natural complementation with third parties to increase productivity and quality But insourcing is a natural alternative for certain business problems The adequate mix of both outsourcing and insourcing alternatives will provide the adequate answer to your business problems This book provides the description of the nature of the outsourcing and insourcing processes This book is a support for executives that are familiar with the unicist approach to business strategy and delivers the necessary questions and conceptual information to define the blending of outsourcing insourcing decisions It includes the unicist ontology of Outsourcing and Insourcing Processes and the questions needed to manage such processes The implicit recommendation is to define to outsource when it is convenient and to insource when it is necessary But when outsourcing has been decided it is necessary to make a deep reflection to define which type of outsourcing should be done This book will help you consider the benefits the risks and the costs implicit in each type of outsourcing

The Ethic of Foundations Peter Belohlavek, 2008-05 Foundation building is a magic tool to opportunities Only fundamentalists subjectivists and relativists cannot stand foundation based arguments You will learn that foundations must be reasonable understandable and provable by your counterpart This opens a world of opportunities but at the same time it establishes the limits of who to talk with By using the ethic of foundations in your group you will promote its upward leveling The ethic of foundation is the spinal cord of globalization and sustainable development This book will give you the

opportunity to learn about what is behind putting ethical intelligence into practice and to profit from it Dependency domination and marginality attitudes represent an obstacle to the existence of a sustainable globalization and development system Globalization built on common interests involves an inter dependency in which each one of its parties plays a self defined and assumed role Promoting synergy at work is one of the ways of growing towards a sustainable globalization But there is a previous condition to this the integration of knowledge among members This knowledge synergy among members is based on what is called as ethics of foundations The management of foundations enables Supporting of synergistic leadership Matching of small and big week and strong Promotion of working value as source of richness and personal fulfillment Promotion of science and technology Promotion of justice as equality of opportunities Group synergy Upwards leveling This book includes the foundations code of ethics to be used both individually and in working groups to foster group synergy and upwards leveling

Brazil's Archetype Peter Belohlavek, 2008-05 Brazil has been and will be a growing empire with democratic rules These unique characteristics of Brazilians make them evolve to be one of the 5 leading countries in the world in the near future This book is necessary for all those who relate with Brazil with more commitment than being an alien tourist The Unicist Archetype is defined by the conceptual structure underlying a society's collective behavior Brazil is Social Capital Consistency and Growth Brazil is a world in itself There is no other country depicting the rules of the game that Brazil does nor portraying its results in the social economic and political field Its orientation toward the future the added value work as a way to assert people's identity its innovation and nationalism are components that integrate in light of a national project inserted in the culture executed by the State and managed by politicians This book includes the unicist ontology of the Brazilian archetype
