Balance Sheet Structures Anthony N Birts,2001-03-20 This book aims to help readers understand the interrelationship between debt and equity in terms of overall value and impact on the cost of capital and also describes the various elements that go to make a balance sheet Interpreting New Testament Narratives Eric J. Douglass,2018-10-02 Narratives are the

concrete manifestation of an author s subjectivity They function as that person s voice and should be treated with the same respect that is granted to all voices In Interpreting New Testament Narratives Eric Douglass develops this ethical perspective so that narratives are treated as communication and the author s voice is regarded as a valued perspective Employing a cross disciplinary approach Douglass shows how readers engage narratives as mental simulations creating a temporary possible world that readers enter and experience To recover communication readers locate the events of this world in the culture of the intended audience and translate this meaning into the modern reader s worldview Using a staged reading design this initial reading is followed by readings of critique **Crossing Class Boundaries** Lenette

Schuijt,2025-07-07 Are you a social climber Chances are high as there are many people who cross class boundaries They embark on a long journey filled with adventures and obstacles confusion and discoveries This brings them into a new world

with different social codes yet also one with intellectual freedom and new friends even as they never completely lose their ties to home Social climbers thus navigate two worlds where they feel more or less at home In this engaging book Lenette Schuijt takes you through the journey that transclass individuals undertake and how it shapes them as a person She draws from her own life experiences from dozens of interviews with social climbers about their unique life stories and from literary narratives Through a study of sociological philosophical and psychological analyses of social mobility she found answers to many questions What do social risers need to leave behind and how do they carve out their own place in a different environment How do they ensure that while climbing the social ladder they remain true to themselves How does their contact with their family background change These life stories of social climbers illustrate that class is still very much alive in our society Get acquainted with a fascinating but hidden phenomenon for many 10% of the royalties from this book go to the Big Brother Big Sister Foundation which provides children from low income families with social and cultural resources through a mentoring program

Early Christian Widows and their Social-economic Situation, Support, and Contribution to the Church Rebekah Yurong Zhao, 2025-10-02 In the first consideration of widows in early Christianity Rebekah Yurong Zhao explores the social economic situation of widows their means of support and their contributions to the church Through literary analysis of three different genres of early Christian texts narrative instruction and apologetic texts Zhao argues that historical conclusions can be drawn especially when set against the cultural backgrounds in both the Roman world and ancient Judaism By exploring the situation for widowed women in these cultures and analysing significant texts from the first two centuries of the church including 1 Timothy the Shepherd of Hermas Ignatius Polycarp Tertullian and the Apologists Zhao seeks to answer three key questions what status did widows hold in early Christian society who precisely comprised their support network and what contributions did they make to the church Ultimately this volume examines how support for widows became an iconic practice in early Christianity whilst also dispelling the stereotype of the widow as merely a passive recipient of care
