Causality and Objectivity in Macroeconomics Tobias Henschen, 2023-09-29 Central banks and other policymaking institutions use causal hypotheses to justify macroeconomic policy decisions to the public and public institutions These hypotheses say that changes in one macroeconomic aggregate e g aggregate demand cause changes in other macroeconomic aggregates e g in inflation An important perhaps the most important goal of macroeconomists is to provide conclusive evidence in support of these hypotheses If they cannot provide any conclusive evidence then policymaking institutions will be unable to use causal hypotheses to justify policy decisions and then the scientific objectivity of macroeconomic policy analysis will be questionable The book analyzes the accounts of causality that have been or can be proposed to capture the type of causality that underlies macroeconomic policy analysis the empirical methods of causal inference that contemporary macroeconomists have at their disposal and the conceptions of scientific objectivity that traditionally play a role in economics The book argues that contemporary macroeconomists cannot provide any conclusive evidence in support of causal hypotheses and that macroeconomic policy analysis doesn't qualify as scientifically objective in any of the traditional meanings The book also considers a number of steps that might have to be taken in order for macroeconomic policy analysis to become more objective The book addresses philosophers of science and economics as well as macro economists econometricians and statisticians who are interested in causality and macro econometric methods of causal inference and their wider philosophical and social context

Mothers on the Margin? E. Anne Clements, 2014-05-01
The Gospel of Matthew opens with a patrilineal genealogy of Jesus that intriguingly includes five women Tamar Rahab Ruth she of Uriah and Mary
In a gospel that has a strongly Jewish and male orientated outlook why are women incorporated
In particular why include these four Old Testament women alongside Mary
Rejecting traditional as well as feminist views Anne Clements undertakes a close literary reading of the narratives to discern how each woman is characterized and presented
All are significant scriptural figures on the margins of Israelite society
From this intertextual world established by Matthew Clements explores why Matthew may have named these women in the opening genealogy and what implications their inclusion may have for the ongoing gospel narrative
Mothers on the Margin argues that Matthew's Gospel contains a counter narrative focused on women
The presence of the five women in the genealogy indicates that the birth of the Messiah will bring about a crisis in Israel's identity in terms of ethnicity marginality and gender
The women signal that Matthew's Gospel is concerned with the construal of a new identity for the people of God

Between Politics and Markets Yi-min Lin, 2001-12-17
Between Politics and Markets examines how the decline of central planning in post Mao China was related to the rise of two markets an economic market for the exchange of products and factors and a political market for the diversion to private interests of state assets and authorities
Lin reveals their concurrent development through an account of how industrial firms

competed their way out of the plan through exchange relations with one another and with state agents He argues that the two markets were mutually accommodating that the political market grew also from a decay of the state s self monitoring capacity and that economic actors competition for special favors from state agents constituted a major driving force of economic institutional change *Missing May Lit Link Gr. 4-6* ,
