It demonstrates how classrooms can be transformed into genuine communities of writers where talking, reading, writing and sharing give children confidence, motivation and a sense of the relevance writing has to their own lives and learning. Based on their practical experience and what research says is the most effective practice, the authors share detailed guidance on how teachers can provide writing study lessons drawing on what real writers do and how to teach grammar effectively. They also share a variety of authentic class writing projects with accompanying teacher notes that will encourage children to use genres appropriately, creatively and flexibly. The authors' simple yet comprehensive approach includes how to teach the processes and craft knowledge involved in creating successful and meaningful texts.
