DeFazio, William David Spencer, 2016-05-03 How does the future look to us Well clearly we realize we now live in a world of screens from the microcosmic universe of the smartphone to the imposing vigil of the multiplex giants

looming over us in Imax and 3 D more real than real and to all the screens in between from computers to iPads to muted high definition flat screens pouring out images in homes restaurants banks businesses schools doctors offices and hospitals and on and on everywhere we turn We cannot change this reality so what these Christians and so many like them are doing is trying to find ways to redeem what we put on these screens what message we are sending out in word and image to the watching world So clearly our task whether we have been called to create or not is to join these artists as screen redeemers assisting the Holy Spirit in reconciling the world to God 2 Cor 5 18 19 through helping the pervasively influential means of the media adjust its goals to the mission of Jesus Christ

Blood on the Moon Edward

Steers Jr., 2005-10-21 Winner of the 2001 The Lincoln Group of New York s Award of Achievement A History Book Club Selection The assassination of Abraham Lincoln is usually told as a tale of a lone deranged actor who struck from a twisted lust for revenge This is not only too simple an explanation Blood on the Moon reveals that it is completely wrong John Wilkes

Booth was neither mad nor alone in his act of murder. He received the help of many, not the least of whom was Dr Samuel Alexander Mudd, the Charles County physician who has been portrayed as the innocent victim of a vengeful government. Booth was also aided by the Confederate leadership in Richmond. As he made his plans to strike at Lincoln, Booth was in contact with key members of the Confederate underground, and after the assassination, these same forces used all of their resources to attempt his escape. Noted Lincoln authority Edward Steers Jr introduces the cast of characters in this ill-fated drama; he explores why they were so willing to help pull the trigger and corrects the many misconceptions surrounding this defining moment that changed American history. After completing an acclaimed career as a research scientist at the National Institutes of Health, Edward Steers Jr has turned his research skills to the Lincoln assassination. He is the author of several books about the president, including *The Trial*. **A Hands-On Introduction to Forensic Science** Mark Okuda, Frank H. Stephenson, PhD., 2014-10-17 One failing of many forensic science textbooks is the isolation of chapters into compartmentalized units. This format prevents students from understanding the connection between material learned in previous chapters with that of the current chapter. Using a unique format, *A Hands On Introduction to Forensic Science: Cracking the Case* approaches the topic of forensic science from a real-life perspective in a way that these vital connections are encouraged and established. The book utilizes an ongoing fictional narrative throughout, entertaining students as it provides hands-on learning in order to crack the case. As two investigators try to solve a missing person's case, each succeeding chapter reveals new characters, new information, and new physical evidence to be processed. A full range of topics are covered, including processing the crime scene, lifting prints, trace and blood evidence, DNA and mtDNA sequencing, ballistics, skeletal remains, and court testimony. Following the storyline, students are introduced to the appropriate science necessary to process the physical evidence, including math, physics, chemistry, and biology. The final element of each chapter includes a series of cost-effective, field-tested lab activities that train students in processing, analyzing, and documenting the physical evidence revealed in the narrative. Practical and realistic in its approach, this book enables students to understand how forensic science operates in the real world. *Who Killed...? Through laborious research and interviews with investigators and families of the victims, investigative reporter Jack Swint has laid out particulars of these unsolved crimes. These chapter-length sketches provide a glimpse into twenty unsolved murders from the frustrations of law enforcement officials to grieving family members to the coping of local communities trying to make sense of the random acts of madness. As a whole, *Who Killed Pittsburgh* reveals the dark underbelly of Pennsylvania communities still struggling to diffuse the rage and brutality that so many of its inhabitants possess. *Collateral Damage* James Atwood, 2019-11-05 What is a country to do when it has more guns than people? An avid hunter and leader in the faith-based movement against gun violence examines the collateral damage in a country with 350 million firearms. *The Invisible Things of God* Bob

Joseph,2023-05-08 What does nature speak about God There are many mysteries or invisible things about God encrypted in the universe When we examine the physical world at various resolutions of detail from the vast unending expanse of the universe to the minute microorganisms that inhabit our planet we can discover a lot of things about God Science and faith in God are not opposed to each other This book highlights how scientific study can reveal several things about the character of God especially His power greatness and wisdom If we open our hearts to seek and understand the truth we can learn many things about Him without having to sacrifice common sense logic and rational thinking This colorful and picture filled book takes you through many examples in nature that clearly display God s amazing work of creation and in the process provokes you to awe and wonder The Invisible Things of God also introduces a slightly different perspective about the often misunderstood concept of faith It also reminds you of the impending reality of God s final judgment and His easily attainable loving free gift of salvation from eternal suffering It describes the sweetness blessedness and joy associated with knowing and walking with the Creator of this universe based on the author s own relationship with God
