*Turfloop a Conscious Pariah* Kanyane Chris Kanyane, Chris Kanyane, 2010 This book provides reflections on the butterfly effect on how Turfloop brought in the Age of Barack Obama What is the Age of Barack Obama To paraphrase Dr Ineke Van Kessel a prominent historian at the Leiden University in the Netherlands The University of the North also known as Turfloop played a vital role as the center of communication coordination ideological direction the engine of bringing the new South Africa was University of the North We approached this book like detectives Fortunately in our detective work we were not concerned with a particular agenda we were not trying to prove that a certain method of thinking was right or wrong We didn't want this book to be filled with personal opinions and biases We wanted this book to be juicy and accessible to every person who reads it in whatever corner of the world We have to back up our story with facts of course and get other people to do practical analysis and later we added our own perspectives When we completed writing this book we passed it around amongst critical people spread across the globe Most of them said that the book is somehow highbrow and at the same time all together lowbrow which came as a compliment A lot of people are somewhere in between We want this book to embody that because there are many people there we want them to appreciate this book **Report**, 1961 The Secret in My

*Debating African Philosophy* George Hull, 2018-11-21 In African countries there has been a surge of intellectual interest in foregrounding ideas and thinkers of African origin in philosophy as in other disciplines that have been unjustly ignored or marginalized. African scholars have demonstrated that precolonial African cultures generated ideas and arguments which were at once truly philosophical and distinctively African and several contemporary African thinkers are now established figures in the philosophical mainstream. Yet despite the universality of its themes, relevant contributions from African philosophy have rarely permeated global philosophical debates. Critical intellectual excavation has also tended to prioritize precolonial thought overlooking more recent sources of home-grown philosophical thinking such as Africa's intellectually rich liberation movements. This book demonstrates the potential for constructive interchange between currents of thought from African philosophy and other intellectual currents within philosophy. Chapters authored by leading and emerging scholars recover philosophical thinkers and currents of ideas within Africa and about Africa, bringing them into dialogue with contemporary mainstream philosophy. Foreground the relevance of African theorizing to contemporary debates in epistemology, philosophy of language, moral, political philosophy, philosophy of race, environmental ethics and the metaphysics of disability. Make new interventions within on-going debates in African philosophy. Consider ways in which philosophy can become epistemically inclusive, interrogating the contemporary call for decolonization of philosophy. Showing how foregrounding Africa, its ideas, thinkers and problems can help with the project of renewing and improving the discipline of philosophy worldwide, this book will stimulate and challenge everyone with an interest in philosophy and is essential reading for upper-level undergraduate students, postgraduate students and scholars of African and African philosophy.
