Designing the Moment Robert Hoekman Jr., 2010-04-09 The trick to great design is knowing how to think through each decision so that users don't have to. In *Designing the Moment*, Web Interface Design Concepts in Action, Robert Hoekman Jr., author of *Designing the Obvious*, presents over 30 stories that illustrate how to put good design principles to work on real world web application interfaces to make them obvious and compelling. From the first impression to the last, Hoekman takes a think out loud approach to interface design to show us how to look critically at design decisions to ensure that human beings, the kind that make mistakes and do things we don't expect, can walk away from our software feeling productive, respected, and smart.
