Using Corpora to Learn about Language and Discourse Linda Lombardo, 2009 Considerable progress has been made in the use of corpora for research purposes to describe language in use and more recently through a CADS corpus assisted discourse studies approach to identify the discourse features of specific text genres While the potential benefits of working with corpora in the classroom have been recognised there has been a lag in the promulgation of guidelines for carrying out meaningful corpus work with language learners and teachers in mind The papers in this volume aim to make a contribution toward filling that gap by providing an in depth account of innovative corpus work most of which has actually been carried out with real learners in the classroom Authors provide valuable insights into ways of structuring corpus work for specific target learners as well as suggestions for resolving problematic issues that have arisen and avoiding errors that have been made with learners and in their own research and experimentation The transparency and honesty with which they present their methodology and results along with the successful techniques they have developed constitute a step forward in defining good and bad practice in the use of corpora in learning

Corpora and Discourse Studies Anthony McEnery, Paul Baker, 2015-07-21 This edited collection brings together contemporary research that uses corpus linguistics to carry out discourse analysis The book takes an inclusive view of the meaning of discourse covering different text types or modes of language including discourse as both social practice and as ideology or representation

Corpus Linguistics, Context and Culture Viola Wiegand, Michaela Mahlberg, 2019-11-18 Corpus Linguistics Context and Culture demonstrates the potential of corpus linguistic methods for investigating language patterns across a range of contexts Organised in three sections the chapters range from detailed case studies on lexico grammatical patterns to fundamental discussions of meaning as part of the discourse contexts and cultures theme The final part on learner contexts specifically emphasises the need for mixed method approaches and the consideration of pedagogical implications for real world contexts Beyond its contribution to current debates in the field this edited volume indicates new directions in cross disciplinary work

[Anonymous Art at Auction](#) Anne-Sophie V. Radermecker, 2021-05-25 Working with a data set accounting for 13 000 auction sales results Anne Sophie V Radermecker explores what contemporary buyers value when purchasing paintings of unknown or uncertain

authorship and which variables influence price formation mechanisms in this market segment The principle finding of this book is not only that historical names matter in the art market but so do all other alternative identification strategies that art market players use to label anonymous paintings Indirect names provisional names and spatiotemporal designations function as substitutes for real names that simulate identities create ex post stories around the artworks offered for sale and consequently reduce information asymmetry about an artist's identity with at time quite unexpected effects on price
