highlights there is a tangible threat to U S armored forces In the face of this threat the United States remained capable of building new more complicated and more expensive tanks which demonstrates the industrial endowment required to meet the demands of the threat An examination of the combat environment reveals why the U S Army and its armor force seemed so fixated on Europe as the next war s first battlefield Ultimately this paper serves to demonstrate that a tank series such as the M1 Abrams family is a required component in the U S Army s combined arms arsenal As such it is important that the aging Abrams having served the Army in Operation Desert Storm and the Global War on Terror continue to evolve in preparation for the next war
