Gulliver's Travels In Plain and Simple English (A Modern Translation and the Original Version) Jonathan Swift, 2013-11-01

Almost 300 years ago Jonathan Swift published what is considered one of the greatest satires of all time. A few pages in you might start asking the obvious: why aren't you laughing? Probably because many of the words are not even used today. Let BookCaps help with this edition of Swift's classic work in modern English. The original text is also presented in the book along with a comparable version of both texts. We all need refreshers every now and then. Whether you are a student trying to cram for that big final or someone just trying to understand a book more, BookCaps can help. We are a small but growing company and are adding titles every month.

Dialogues with/and Great Books David Fishelov, 2011-10-06 What is the source of a book's perceived greatness and why do certain books become part of the accepted canon? This book presents a fresh perspective on these questions against prevalent approaches: it explains a work's reputation in terms of its aesthetic qualities or as the result of dictates by social hegemonies, the power view.

Renaissance Utopias and the Problem of History Marina Leslie, 2019-05-15 Marina Leslie draws on three important early modern utopian texts: Thomas More's *Utopia*, Francis Bacon's *New Atlantis*, and Margaret Cavendish's *Description of a New World Called the Blazing World* as a means of exploring models for historical transformation and of addressing the relationship of literature and history in contemporary critical practice. While the genre of utopian texts is a fertile terrain for historicist readings, Leslie demonstrates that utopia provides unstable ground for charting out the relation of literary text to historical context. In particular, she examines the ways that both Marxist and new historicist critics have taken the literary utopia not simply as one form among many available for reading historically but as a privileged form or methodological paradigm. Rather than approach utopia by mapping out a fixed set of formal features or by tracing the development of the genre, Leslie elaborates a history of utopia as critical practice. Moreover, by taking every reading of utopia to be as historically symptomatic as the literary production it assesses, her book integrates readings of these three English Renaissance utopias with an analysis of the history and politics of reading utopia. Throughout, Leslie considers utopia as a fictional enactment of historical process and method. In her view, these early modern utopian constructions of history relate very closely to and impinge upon the narrative structures of

and not simply a chronicler of the work of others His final chapter on Mannheim comparing him with Lukacs as well as Marx is central to our understanding of sociology In raising the importance of the role of consciousness in the study of society Mannheim overcame what Marx and Engels no less than many of his followers understood to be an essential weakness in the so called economic interpretation of history This book linking Mannheim to the Hungarian climate helps us appreciate how this sociological synthesis came about in a specific social setting Joseph Gabel was born in Hungary and educated in French universities He is the author of *False Consciousness* 1962 *Sociology of Alienation* 1970 *Ideologies Vol I* 1974 *Ideologies II* 1978 all in French His book on *The Forms of Estrangement* 1964 was published in German His shorter articles have appeared in *Kolner Zeitschrift for Soziologie und Sozial psychologie* and the Newsletter of the International Society for the Sociology of Knowledge
