Business Analytics: Progress On Applications In Asia Pacific Jorge L C Sanz,2016-09-29 Technological advances in the last five years have allowed organizations to use Business Analytics to provide insights increase understanding and it is hoped gain the elusive competitive edge The rapid development of Business Analytics is impacting all enterprise competences profoundly and classical business professions are being redefined by a much deeper interplay between business and information systems As computing capabilities for analysis has moved outside the IT glass house and into the sphere of individual workers they are no longer the exclusive domain of IT professionals but rather accessible to all employees Complex open source data analytics packages and client level visualization tools deployed in desktops and laptops equip virtually any end user with the instruments to carry out significant analytical tasks All the while the drive to improve customer experience has heightened the demand for data involving customers providers and entire ecosystems In response to the proliferation of Business Analytics a new Center and Masters of Science Program was introduced at the National University of Singapore NUS The Center collaborates with over 40 different external partner organizations in Asia Pacific with which all MSBA students undertake individual projects Business Analytics Progress on Applications in Asia Pacific provides a useful picture of the maturity of the Business Analytics domain in Asia Pacific For more information about the Business Analytics Center at NUS visit the website at msba.nus.edu

Optimality-theoretic Syntax, Semantics, and Pragmatics Géraldine Legendre,Michael T. Putnam,Henriëtte de Swart,Erin Zaroukian,2016 This book investigates the morphosyntactic semantic and pragmatic properties of language and the interactions between them from the perspective of Optimality Theory It integrates optimization processes into the formal

and functional study of grammar interpreting optimization as the result of conflicting violable ranked constraints Unlike previous work on the topic this book also takes into account the question of directionality of grammar A model of grammar in which optimization processes interact bidirectionally allows both language generation the process of selecting the optimal form of a given meaning and language interpretation the process of optimal interpretation of a given form to be taken into account Chapters in this volume explore the consequences of both symmetric unidirectional and asymmetric bidirectional versions of Optimality Theory investigating the syntax semantics interface first language acquisition and sequential bilingual grammars The volume presents cutting edge research in Optimality Theoretic syntax and semantics as well as demonstrating how optimization processes as modelled in this formalism serve as a viable approach for linguists and scholars in related fields

Corporate Social Responsibility and Discrimination Christina Keinert-Kisin, 2016-04-27 This book presents and deconstructs the existing explanations for the differential career development of qualified men and women It reframes the problem of discrimination in the workplace as a matter of organizational ethics social responsibility and compliance with existing equal opportunity laws Sensitive points are identified where social biases decision makers individual economic interests and shortcomings of organizational incentive policies may lead to discrimination against qualified women The ideas put forward are empirically tested in an original laboratory experiment that examines personnel selection in the male dominated field of science and technology It contrasts the selection of applicants with gendered and gender blind applications available to subjects under controlled conditions 30% of participants were high level decision makers which is unprecedented in this field of research The results highly relevant for organizational practice are explained and discussed in detail

Govender,2021-02-24 This volume explores the pressing issues of entrepreneurship education and development in Southern Africa It discusses the various roles of higher education institutions in enhancing entrepreneurship in localised communities and provides a systematic solution for improving the Southern African economy by realising the importance of empowering the youth with entrepreneurial skills In addition successful development requires effective policies and contemporary approaches to both community engagement and entrepreneurship management The book uses different Southern African case studies to discuss the various issues and innovations in entrepreneurship in the country

Unleashing Growth and Strengthening Resilience in the Caribbean Mr.Krishna Srinivasan,Ms.Inci Otker,Ms.Uma Ramakrishnan,Mr.Trevor Serge Coleridge Alleyne,2017-11-13 This book provides a diagnosis of the central economic and financial challenges facing Caribbean policymakers and offers broad policy recommendations for promoting a sustained and inclusive increase in economic well being The analysis highlights the need for Caribbean economies to make a concerted effort to break the feedback loops between weak macroeconomic fundamentals notably pertaining to fiscal positions and financial sector strains and structural impediments such as high electricity costs limited financial deepening violent crime and brain drain which have depressed private investment and growth A recurring theme in the book is the need for greater regional coordination in finding solutions to address the Caribbean s shared and intertwined macroeconomic and structural challenges The analysis suggests that strengthening regional and global market integration of Caribbean economies would provide an impetus to sustained growth in incomes and jobs Greater regional and global economic integration would also facilitate structural transformation and a shift toward new economic activities resulting in more diversified and less vulnerable economies A central challenge for the Caribbean is thus to come together as a region overcome the limitations posed by size and garner the benefits of globalization Efforts should build on existing regional arrangements accelerating progress in implementing these agreements would stimulate trade Policymakers could also promote deeper integration with Latin America and the rest of the world by pursuing new trade agreements leveraging current agreements more effectively or deepening them to include areas beyond traditional trade issues and developing port and transport infrastructure

Engineering and Reliability contains papers presented at the International Conference on Applied Mathematics in Engineering and Reliability ICAMER 2016 Ho Chi Minh City Viet Nam 4-6 May 2016. The book covers a wide range of topics within mathematics applied in reliability risk and engineering including Risk and Reliability, *Rotating Machinery, Hybrid Test Methods, Vibro-Acoustics & Laser Vibrometry, Volume 8* James De Clerck, David S. Epp, 2016-06-29. Rotating Machinery Hybrid Test Methods Vibro Acoustics Laser Vibrometry Volume 8. Proceedings of the 34th IMAC A Conference and Exposition on Dynamics of Multiphysical Systems From Active Materials to Vibroacoustics 2016 the eighth volume of ten from the Conference brings together contributions to this important area of research and engineering. The collection presents early findings and case studies on fundamental and applied aspects of Structural Dynamics including papers on Processing Modal Data Rotating Machinery Vibro Acoustics Laser Vibrometry Teaching Practices Hybrid Testing Reduced Order Modeling.

Mathematical Analysis of Continuum Mechanics and Industrial Applications Hiromichi Itou, Masato Kimura, Vladimír Chaloupecký, Kohji Ohtsuka, Daisuke Tagami, Akira Takada, 2016-11-18. This book focuses on mathematical theory and numerical simulation related to various aspects of continuum mechanics such as fracture mechanics, elasticity, plasticity, pattern dynamics, inverse problems, optimal shape design, material design and disaster estimation related to earthquakes. Because these problems have become more important in engineering and industry, further development of mathematical study of them is required for future applications. Leading researchers with profound knowledge of mathematical analysis from the fields of applied mathematics, physics, seismology, engineering and industry provide the contents of this book. They help readers to understand that mathematical theory can be applied not only to different types of industry but also to a broad range of industrial problems including materials, processes and products. Industry 4.0 - Shaping The Future of The Digital World Paulo Jorge da Silva Bartolo, Fernando Moreira da Silva, Shaden Jaradat, Helena Bartolo, 2020-10-28. The City of Manchester, once the birthplace of the 1st Industrial Revolution, is today a pioneering hub of the 4th Industrial Revolution. Industry 4.0 offering Industry 4.0 solutions in advanced materials, engineering, healthcare and social sciences. Indeed, the creation of some of the city's greatest academic institutions was a direct outcome of the industrial revolution, so it was something of a homecoming that the Sustainable Smart Manufacturing S2M Conference was hosted by The University of Manchester in 2019. The conference was jointly organised by The University of Manchester, The University of Lisbon and The Polytechnic of Leiria, the latter two bringing in a wealth of expertise in how Industry 4.0 manifests itself in the context of sustainably evolving, deeply rooted cities. S2M 2019 instigated the development of 61 papers selected for publication in this book on areas of Smart Manufacturing, Additive Manufacturing and Virtual Prototyping, Materials for Healthcare Applications and Circular Economy, Design Education and Urban Spaces. Durability of Critical Infrastructure, Monitoring and Testing Alexander Kravcov, Elena B. Cherepetskaya, Vaclav Pospichal, 2016-12-05. This book presents the proceedings of the International Conference on Durability of Critical Infrastructure Monitoring and Testing held in Satov.

Czech Republic from 6 to 9 December 2016 It discusses the developments in the theoretical and practical aspects in the fields of Safety Sustainability and Durability of the Critical Infrastructure The contributions are dealing with monitoring and testing of structural and composite materials with a new methods for their using for protection and prevention of the selected objects
