businesses primarily as social movement tools These may be bookstores infoshops libraries knowledge cafes community centers publishing collectives thrift stores or art installations They are run by activist entrepreneurs who create centers for organizing and selling books to pay the rent These spaces allow radical and contentious ideas to be explored and percolate through to actual social movements and serve as crucibles for activists to challenge capitalism imperialism white privilege patriarchy and homophobia They also exist within a central paradox participating in the marketplace creates tensions contradictions and shortfalls Activist retail does not end capitalism collective ownership does not enable a retreat from civic requirements like zoning and donations no matter how generous do not offset the enormous power of corporations and governments In this timely and relevant book Kinder presents a necessary novel and apt analysis of the role these retail spaces play in radical organizing one that demonstrates how such durable hubs manage to persist often for decades between the spikes of public protest *History of Soybeans and Soyfoods in North Carolina (1856-2017)* William Shurtleff; Akiko Aoyagi, 2017-06 The world's most comprehensive well documented and well illustrated book on this subject With extensive subject and geographical index 157 photographs and illustrations Free of charge in digital PDF format on Google Books
