**Type Noun Constructions in Slavic, Germanic and Romance Languages** Wiltrud Mihatsch, Inga Hennecke, Anna Kisiel, Alena Kolyaseva, Kristin Davidse, Lieselotte Brems, 2023-04-27 This volume is the first dedicated to the comprehensive in depth analysis of constructions with nouns like type and sort It focuses on type noun constructions in Romance Germanic and Slavic languages integrating the different descriptive traditions that had been developed for each language family As a result a greater variety of type noun constructions is revealed than in the hitherto more fragmented literature But attention is also drawn to the cross linguistic similarity of the new pragmatic meanings such as ad hoc and approximative categorization hedging focus and filler uses and the new grammatical functions in NPs e g phoric uses clauses e g adverbial uses and complex sentences e g quotatives The volume offers survey chapters of type noun constructions in each language family as well as contributions focusing on specific aspects in one or two languages such as their grammar semantics and pragmatics diachronic development discursive and sociolinguistic variety These complementary methodologies elucidate the unique cross linguistic field of type noun constructions both descriptively and theoretically Hence this volume can also serve as a model for similar surveys in other functional domains On a Global Mission: The Automobiles of General Motors

International Volume 3 Louis F. Fourie, 2016-12-27 Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015 Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM Each model is examined individually and supplemented by exhaustive supporting specification tables The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner Included is a penetrating review of Saab through to its unfortunate demise Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America Daewoo Wuling and Baojun are other Asian brands covered in detail This volume concludes with recording the remarkable early success of Holden and its continued independence through to today Volume Three covers the smaller assembly operations around the world and the evolution of GM s export operations A brief history of Isuzu Subaru and Suzuki looks at the three minority interests GM held in Asia The GM North American model specifications are the most comprehensive to be found in a single book Global and regional sales statistics are included GM executives and management from around the globe are listed with the roles they held An index ensures that these volumes serve as the ideal reference source on GM

applications require explicit storage and manipulation of more abstract types e g images design documents and the ability for the users to define their own application specific types Therefore a rich type system supporting user defined abstract types is required 2 The relational model structures data in a relatively simple and flat manner Non traditional applications require more complex object structures with nested objects e g a vehicle object containing an engine object **Can Cars Come Clean?
