Educational Research: a Beginner's Guide Allyson Sesay, 2012-01-04 This book presents a rudimentary exposure to the field of educational research and an attempt to allay the unwarranted fear of those who perceive research as a highly technical and complex scholarly activity carried out by persons in the sciences The author takes the position that anyone can do research and that it can be an interesting and very worthwhile experience Educational research particularly action research which the author emphasizes is an invaluable exercise about which everyone in education should be knowledgeable or at least be familiar Starting with an explication of some salient concepts in the study of research e g research educational research research problem v research topic hypothesis experimental v non experimental research the book takes the reader through the process of conducting a research problem from problem selection and statement significance review of literature methodology data analysis findings to recommendations and conclusions Detailed descriptions of the American Psychological Association APA style of referencing with ample examples are provided The book is written in simple language so that even high school students will be able to acquire a fairly good understanding of each contents Though the primary target population is undergraduate students of education the contents are broad enough to provide a guide for students in other disciplines as well as whet the appetite of the general reader who seeks only a basic knowledge of research and or educational research Doctrines and Discipline of the Methodist Episcopal Church, 1920 Methodist Episcopal

Church, 1921 **How the Japanese Learn to Work** R. P. Dore, Mari Sako, 2012-10-02 Japan is regarded as a world leader in the field of education and training for improved economic performance Yet success in Japan is often achieved by going against what is regarded as ideal practice elsewhere This book offers the most comprehensive review available in English of the many facets of Japanese vocational education and training Covering the system from primary education through to in job training offered by companies this book provides a detailed study of current practice giving equal emphasis to formal training in explicitly vocational courses and informal training in factories shops and offices The authors analyse the difference between substantive person changing training and mere ability labelling They raise important questions such as To what

extent does the need to package skills to provide convenient qualifications distort the actual training given How efficient is it to rely on professional trainers to certify the acquisition of skills rather than run separate testing systems The authors reveal how in Japanese companies employees are strongly motivated by pride in the successful execution of their jobs and that much company training is carried out by colleagues

The Practice of Mission in Global Methodism David W. Scott, Darryl W. Stephens, 2021-04-19 This book brings together Methodist scholars and reflective practitioners from around the world to consider how emerging practices of mission and evangelism shape contemporary theologies of mission Engaging contemporary issues including migration nationalism climate change postcolonial contexts and the growth of the Methodist church in the Global South this book examines multiple forms of mission including evangelism education health and ministries of compassion A global group of contributors discusses mission as no longer primarily a Western activity but an enterprise of the entire church throughout the world This volume will be of interest to researchers studying missiology evangelism global Christianity and Methodism and to students of Methodism and mission

Research Anthology on School Shootings, Peer Victimization, and Solutions for Building Safer Educational Institutions Management Association, Information Resources, 2020-09-10 Though decades ago school shootings were rare events today they are becoming normalized Active shooter drills have become more commonplace as pressure is placed on schools and law enforcement to prevent the next attack Yet others argue the traumatizing effects of such exercises on the students Additionally violence between students continues to remain problematic as bullying pervades children's lives both at school and at home leading to negative mental health impacts and in extreme cases suicide Establishing safer school policies promoting violence prevention programs building healthier classroom environments and providing better staff training are all

vital for protecting students physically and mentally The Research Anthology on School Shootings Peer Victimization and Solutions for Building Safer Educational Institutions examines the current sources of violence within educational systems and it offers solutions on how to provide a safer space for both students and educators alike Broken into four sections the book examines the causes and impacts that peer victimization has on students and how this can lead to further violence and investigates strategies for detecting the warning signs The book provides solutions that range from policies and programs that can be established to strategies for teaching nonviolence and promoting coexistence in the classroom Highlighting a range of topics such as violence prevention school climate and bullying this publication is an ideal reference source for school administrators law enforcement teachers government and state officials school boards academicians researchers and upper level students who are intent on stopping the persisting and unfortunate problem that is school violence
