

The Outsiders

by S. E. Hinton

Please answer the following questions on a separate sheet of paper.

Chapter 1

1. Who are the Socs? Who are the Greasers?

Socs - rich, madras, mustangs, East side

Greasers - poor, t-shirts and jeans, West side

2. How is Pony's relationship with Darry different from his relationship with Soda?

Darry is more like a father-figure to Pony. He loves him, but they argue a lot and he is hard on him. Soda and Pony are friends. He really understands Pony and they have a lot in common.

3. Why is the "gang" so important to Johnny?

He relies on them like family, because his father abuses him and his mother ignores him.

4. Do you think Darry loves Pony? Why does he treat Pony the way he does?

Yes, he does love Pony. He is hard on Pony because he doesn't want him to get in trouble because then the boys would be split up. He wants Pony to have a good life.

5. Explain what Pony means when he says, "I lie to myself all the time". Why do you think people lie to themselves?

He tries to convince himself something is truth. For example, he tries to convince himself that he doesn't care that Darry doesn't love him, but he does care whether or not Darry loves him.

Chapter 2

1. Who are Cherry and Marcia?

Two Socy girls Pony and Johnny picked up at the drive-in.

2. Why is it strange that Cherry and Pony get along so well?

Socs and Greasers shouldn't get along, but Cherry and Pony have a lot in common - sunsets, dreamers, school.

3. According to Two-Bit, what is a "fair fight"? Why don't Socs fight fair?

David Searles,2021-05-11

Alice Spencer Geddes Lloyd was a New England woman with a mission in life In 1916 she settled on Caney Creek in Eastern Kentucky determined to bring higher education to this remote corner of Appalachia The school she founded now Alice Lloyd College continues to serve the area and its people and to stand as a tribute to Lloyd s remarkable energy determination and vision Lloyd s program combined a rigorous academic curriculum with an intense effort to instill a sense of service in the school s graduates This education was provided free and required only that the students abide by Lloyd s strict rules of conduct and pledge to remain in the mountains after graduating In the first full scale study of Lloyd s life and work and the institution she founded David Searles shows how this courageous and complex woman struggled throughout her long life against seemingly insurmountable odds to create an institution dedicated to improving life in Appalachia But as he acknowledges Lloyd s fundraising activities relied on harmful stereotypes that caused resentment among her mountain neighbors and she often angered others working in the mountains Despite the negative aspects of Lloyd s activities Searles casts serious doubt on the now fashionable conclusion that the women who came to the mountains to do good created more problems than they solved Lloyd s story he argues demonstrates that much good was indeed accomplished and that the people of the mountains recognized and appreciated her achievement **Solutions Manual Volume I Chapters 1-12 to Accompany Fundamental Accounting Principles** Kermit D. The Age of Dualization Patrick Emmenegger,Silja Häusermann,Bruno Palier,Martin Seeleib-Kaiser,2012-08-01 Poverty increased inequality and social exclusion are back on the political agenda not only as a consequence of the Great Recession of 2008 but also because of a seemingly structural trend towards increased inequality in advanced industrial societies that has persisted since the 1970s Policies in labor markets social policy and political representation are strongly linked in the creation widening and deepening of insider outsider divides a process known as dualization While it is certainly not the only driver of increasing inequality its development across multiple domains makes dualization one of the most important current trends affecting developed societies The comparative perspective of this book provides insights into why Nordic countries witness lower levels of insider outsider divides whereas in continental liberal and southern welfare states they are more likely to constitute a core characteristic of the political economy Most importantly the comparisons presented in this book point to the crucial importance of politics and political choice in driving and shaping the social outcomes of deindustrialization While increased structural labor market divides can be found across all countries governments have a strong responsibility in shaping the distributive consequences of these labor market changes Insider outsider divides are ultimately the result of political choice A landmark publication this volume is geared for faculty and graduate students of economics political science social policy and sociology as well as policymakers concerned with increasing inequality in a period of deep economic and social crisis

Ikpeze,2015-04-27 Teaching across Cultures Building Pedagogical Relationships in Diverse Contexts captures the tensions complexities as well as the transformational potentials of teaching across multiple cultural contexts The book evolved from cumulative self studies that

examined one teacher educator's teaching practice the cultural impact on this practice and how she facilitated transformative teaching and learning While every act of teaching occurs across cultures such as institutional culture invisible cultures classroom cultures among others educators who teach as cultural outsiders have to navigate the tensions complexities and contradictory realities of cross cultural teaching The tensions can be reduced or managed through responsive pedagogy relationship building and teaching in the third space These transformational approaches not only help to identify and close the perpetual gaps in teaching and learning but also position effective teaching within a pedagogical common ground that values student voices facilitates pedagogical flexibility and uses diversity as a teaching tool In a world of ubiquitous and interactive learning environments both the physical and virtual spaces play a vital role in teaching and teacher student relationships The book points to the necessity of teacher educators learning through diverse professional networks but more importantly through self study It is only through this introspective examination of one's teaching and students learning as well as taking an ontological attitude to teaching that educators can achieve success in diverse contexts
