The Middle East In The World Economy 181914:

State and Economics in the Middle East Alfred Bonne, 2013-09-05 This is Volume XVI of eighteen in series on the Sociology of Development Originally published in 1948 this study looks at the Middle East as a society in transition in terms of its state and economics Written during the early war period the book covers developments only up to that date The Middle East in the World Economy, 1800-1914 Roger Owen, 1981 Examines the growth and transformation of the Middle East economy during the 19th and early 20th centuries The text looks at how the region's economic structures were fundamentally altered by the growing impact of European trade and finance and by the internal reforms of the rulers of Egypt It also examines in detail the impact of this process on the four central areas of the Middle East The result the author argues was the creation of a fixed pattern of agricultural industrial and financial activity The states formed after the collapse of the Ottoman Empire found that altering this pattern in their attempts to promote a less dependent form of development was fraught with difficulty and the problems they faced and their different approaches are still highly relevant to the Middle East's economic development today The War Lords and the Gallipoli Disaster Nicholas A. Lambert, 2021-02-05 An eye opening interpretation of the infamous Gallipoli campaign that sets it in the context of global trade In early 1915 the British government ordered the Royal Navy to force a passage of the Dardanelles Straits the most heavily defended waterway in the world After the Navy failed to breach Turkish defenses British and allied ground forces stormed the Gallipoli peninsula but were unable to move off the beaches Over the course of the year the Allied landed hundreds of thousands of reinforcements but all to no avail The Gallipoli campaign has gone down as one of the great disasters in the history of warfare Previous works have focused on the battles and sought to explain the reasons for the British failure typically focusing on First Lord of the Admiralty Winston Churchill In this bold new account Nicholas Lambert offers the first fully researched explanation of why Prime Minister Henry Asquith and all of his senior advisers the War Lords ordered the attacks in the first place in defiance of most professional military opinion Peeling back the manipulation of the historical record by those involved with the campaign's inception Lambert shows that the original goals were political economic rather than military not to relieve pressure on the Western Front but to respond to the fall out from the massive disruption of the international grain trade caused by the war By the beginning of 1915 the price of wheat was rising so fast that Britain the greatest importer of wheat in the world feared bread riots Meanwhile Russia the greatest exporter of wheat in the world and Britain's ally in the east faced financial collapse Lambert demonstrates that the War Lords authorized the attacks at the Dardanelles to open the straits to the flow of Russian wheat seeking to lower the price of grain on the global market and simultaneously to eliminate the need for huge British loans to support Russia's war effort Carefully reconstructing the perspectives of the individual War Lords this book offers an eye opening case study of strategic policy making under pressure in a globalized world economy

We Who Proudly Served Peter Francis Kenny, 2015-05-27 Although Australia is only a young country in comparison to

other nations it can hold its head up high and proudly proclaim that it is one of the giants in this world of toil and trouble in which we live When the odds are stacked against Australians they dont turn and run instead they stand and fight and overcome the obstacles that face them The contents of this volume are a tribute to all the men and women of this proud and great country who have come from all walks of life to give of their time and unfortunately some have even given their lives to defend this great land and keep it free There have been politicians doctors nurses police officers average everyday citizens musicians actors artists farmers graziers authors sportsmen and women journalists and a host of others who have taken up the cause for their country and the monarchy serving from the Crimean to the war in Vietnam and beyond Their heroic deeds and their many sacrifices have ensured that todays generation can rest easier proud in the knowledge that these servicemen and women have paved the way for our freedom Now they come together once again as one big family to shed an insight on their achievements so that you can fully understand and appreciate what they have and had experienced I dedicate this work to the memory of all those who have made the supreme sacrifice in order that we may live in peace and prosperity and also to the families of those who did not return The book is not a glorification of war but a glorification of the individual and his or her actions and deeds
