others In doing so they do not only offer new insights into the rhetorical strategies and literary techniques used to construct a gendered I in ancient literature They also address the form and function of first person discourse in classical literature in general touching on fields of research that have increasingly come into focus in recent years such as authorship studies studies concerning the ancient notions of the literary persona as well as a historical narratology that discusses concepts such as the narrator or the literary character in ancient literary theory and practice The Fatal Fortune Jayne
