Mexican Studies in the History and Philosophy of Science S. Ramirez, Robert S. Cohen, 2012-12-06 For a North American seeking to know the Mexican mind and especially the sciences today and in their recent development a great light of genius is to be found in Mexico City in the late 17th century The genius is that of one who surely may be counted as the first Mexican philosopher of nature a nun of the Order of Saint Jerome Sor Juana Ines de la Cruz Sor Juana must speak for herself from her penetrating exercise of an independent mind within a political and religious formation which denigrated women and circumscribed reason itself To understand this world of ours to join in an enlightenment which would be both natural and inspired Sor Juana clearly understood the requirements of learning observing logic and reasoning In darkness foundering Words fail the troubled mind For who I ask can light me When Reason is blind Even now after the great steps toward liberation of women and the

Tait's Edinburgh Magazine William Tait, Christian Isobel Johnstone, 1850 **The British Architect**, 1890 *Alfred Russel Wallace* John van Wyhe, Kees Rookmaaker, 2013-10-24 This volume brings together the letters of the great Victorian naturalist Alfred Russel Wallace 1823-1913 during his famous travels of 1854-62 in the Malay Archipelago now Singapore Malaysia and Indonesia it was these travels which led him to come independently to the same conclusion as Charles Darwin that evolution occurs through natural selection Beautifully written the letters are filled with lavish descriptions of the remote regions he explored the peoples and fascinating details of the many new species of mammals birds and insects he discovered during his time there John van Wyhe and Kees Rookmaaker present new transcriptions of each of the letters including recently discovered letters that shed light on the voyage and on questions such as Wallace's reluctance to publish on evolution and why he famously chose to write to Darwin rather than to send his work to a journal directly A revised account of Wallace's itinerary based on new research by the editors forms part of an introduction that sets the context of the voyage and the volume includes full notes to all letters Together the letters form a remarkable and vivid document of one of the most important journeys of the 19th century by a great Victorian naturalist *The Lancet*, 1894 **Chemical News and Journal of Industrial Science**, 1863 Guy's Hospital Gazette, 1904
