The Woulda Coulda Shoulda Guide to Canadian Inventions Red Green, 2017 One of Canada's greatest inventors takes on his peers with mixed results The author of *How to Do Everything* and *Red Green's Beginner's Guide to Women* has never been reluctant to take on enormously difficult jobs that are doomed to failure This latest project has turned out to be perhaps his nearest thing to a triumph yet In *Woulda Coulda Shoulda* Red surveys analyzes critiques and in some cases tells you how to replicate at home the best Canadian inventions from the Wonderbra to

the hard cup jockstrap by way of insulin the walkie talkie synchronised swimming and more world changing innovations than you can wave a Canadarm at And speaking of the Canadarm Red shows how by simply combining common household items such as a cordless drill metal tape measure broomstick ice tongs bungee cord fishing reel and of course the handiman s secret weapon duct tape you will in no time at all be lifting oranges out of the fruit bowl like a trained astronaut Elsewhere Red tells the little known story of how the BlackBerry inspired a freelance piccolo player from the Possum Lake area to create a WhistleBerry communication device requiring no internet connection wireless or electricity He explains definitively the difference between the alkaline battery and Al Kaline who played right field for the Detroit Tigers And he reveals how Lodge Member Dennis Holmsworth s test run of magnetic shoes along the underside of the Mercury Creek Railway Bridge literally came undone as a result of poor lace tying skills The illustrations are inimitably because really who else would want to the work of the author himself relieved throughout with a large number of photographs in vivid black and white An important contribution to the sesquicentennial celebrations and an inspiration to the handiman and handiwoman to aim high however badly they might miss The Woulda Coulda Shoulda Guide to Canadian Inventions is a book no shed should be without
