Fungal Cell Factories for Sustainable Nanomaterials Productions and Agricultural Applications Kamel A Abd-Elsalam, 2022-10-26 Fungal Cell Factories for Sustainable Nanomaterials Productions and Agricultural Applications explores the mycogenic synthesis of many metal nanoparticles including processing processes environmental protection and future perspectives Nanomaterials including silver gold palladium copper zinc selenium titanium dioxide metal sulphide cellulose have been formed by major fungal genes such as mushrooms Fusarium Trichoderma endophytic fungi and yeast in addition to lichens Understanding the exact process involved in the synthesis of nanoparticles and the effects of various factors on the reduction of metal ions can help to improve low cost strategies for the synthesis and extraction of nanoparticles Other sections focus on a new framework for the production of nano antimicrobial the use of myconanoparticles against plant diseases post harvest antibiotics mycotoxin control and plant pests in addition to certain animal pathogens Myconanomaterials are well developed with great potential and promise for advanced diagnostics biosensors precision farming and targeted smart delivery systems Assesses the impact of a variety of copper based nanostructures on agri food sectors addressing the most relevant knowledge gaps Explores the opportunities that myconanotechnology can provide for industrial applications Explains the major challenges of applying myconanotechnology at an industrial scale

Silver Nanomaterials for Agri-Food Applications Kamel A. Abd-Elsalam, 2021-08-14 Silver Nanomaterials for Agri Food Applications explores how silver based nanomaterials are being used to create more efficient systems and products across the agri food sector In particular the book covers silver nanomaterials as antimicrobial agents in food science for plant protection and for water purification Sections highlight the effect of silver nanoantimicrobials and drug synergism on drug resistant pathogens offer an overview of silver nanomaterials based nanosensors in agri food applications explore the use of silver nanostructures in plant science applications cover plant protection applications describe silver nanomaterial applications in the removal of dyes and pesticides from wastewater and more Explores the applications of silver based nanomaterials for plant protection water treatments and in food science Outlines why silver based nanomaterials have properties that make them beneficial for protection against infectious diseases Assesses the challenge of integrating silver based nanomaterials into agricultural systems

Socially Just Pedagogies Rosi Braidotti, Vivienne Bozalek, Tamara Shefer, Michalinos Zembylas, 2018-06-14 This book addresses contemporary philosophical issues in higher education and how we can create socially just pedagogies and a socially just university Providing a forum for thinking through how critical posthumanism affect theory and feminist new materialisms provide a useful lens for higher education and shows how these standpoints can benefit methods and practices of learning and teaching Gross inequalities in higher education continue to affect pedagogical practices across geopolitical contexts and there is a need to consider new theories which call into question the commonplace humanist assumptions currently dominating the discourse around social justice in this context However

scholarship on the affective turn critical posthumanism and new material feminisms opens both new possibilities and responsibilities for higher education pedagogies The approaches of this book also provide imaginative ways of engaging with current dissatisfactions with higher education from the marketization of education to issues of racism discrimination and lack of diversity Of international relevance this collection particularly foreground southern contexts and case studies such as the student activism in South African universities that has sparked a global project of decolonization and social justice in educational institutions This book is an urgent call to reconceptualize rethink and reconfigure pedagogies in higher education and the implications for future citizenship and social participation

Transformation of the University Søren S.E. Bengtsen,Ryan Evely Gildersleeve,2022-04-25 Transformation of the University imagines preferable futures for the university building hope for the institution s necessary transformation It transcends old criticisms and presents fresh ideas on how the institution might be conceived organised and put into practice while safeguarding that which makes it a university the pursuit of knowledge This book is divided into three main parts Part One Knowledge assumes the role of the university in generating knowledge for the benefit of society Part Two Cultural Growth expands on how the university might contribute to and benefit from the cultural growth of society with both explicit and implicit connections to social and epistemic in justice and Part Three Institutions focuses on imaginative processes for enacting the university as an institution that meets the unforeseen future challenges facing societies around the world With contributions from scholars across the world Transformation of the University is an essential read for all academics practitioners institutional leaders and broad social thinkers who are concerned with the future of the university and its contributions to society

ECISM 2017 11th European Conference on Information Systems Management ,2017-09-14 **Advanced Composites in Aerospace Engineering Applications** Norkhairunnisa Mazlan,S.M. Sapuan,R.A. Ilyas,2022-02-21 This book presents an authoritative account of the potential of advanced composites such as composites biocomposites composites geopolymer hybrid composites and hybrid biocomposites in aerospace application It documents how in recent years composite materials have grown in strength stature and significance to become a key material of enhanced scientific interest and resultant research into understanding their behavior for selection and safe use in a wide spectrum of technology related applications This collection highlights how their unique combination of superior properties such as low density high strength high elastic modulus high hardness high temperature capability and excellent chemical and environmental stability are optimized in technologies within these field

100 Years of World Wars and Post-War Regional Collaboration Kumiko Haba,Alfredo Canavero,Satoshi Mizobata,2023-01-01 This book is about the 100 years of World Wars and Regional Collaboration in the twentieth and twenty first centuries investigating and considering how to foster Good Governance and New World Order The world is currently at the historical turning point The twentieth century witnessed two World Wars WWI and WWII followed by the Cold War that dominated geopolitics Amidst the post war devastation the European Community soon succeeded by the European Union

came into being Peaceful governance was nurtured by building economic collaboration and institutions and by establishing liberalism democracy and the rule of law In Asia the Association of Southeast Asian Nations ASEAN also pursued regional governance after WWII but in East Asia the American Divide and Rule policy is continuing until now by the influence of China North Korea and Russia In the contemporary world in the twenty first century a new nationalism Populism and Authoritarianism are spreading At the same time a wave of rapid economic growth is occurring in developing countries especially in China and India Destabilization is spreading in East Asia Southeast Asia and South Asia concurrently with the search for Democratization Through the two World Wars and the Cold War which originated in 100 years of the twentieth century what types of regional institutions and governance have been developed to avoid endless wars and conflicts In this book it is examined what kind of order is necessary to stabilize the regions from conflicts and wars in both Europe and Asia The themes of the Tokyo Conferences and the Kyoto Conference by SCJ Science Council of Japan in December 2020 were investigated and clarified how the countries that were caught up in global wars have considered regional coexistence in each period and how to establish peace stability and prosperity by means of new institutionalizations norms and the rule of law The aim of the authors is to examine and discuss How to create New World Order Regional Collaborations and Good Governance in the historical power transition period This book can inspire many scholars and young researchers to join in discussing how to create New World Order in the twenty first century from the midst of the unstable situations of the global geopolitics

Leap 4.0. African Perspectives on the Fourth Industrial Revolution Zamanzima Mazibuko-Makena,Erika Kraemer-Mbula.,2021-04-09 Leap 4 0 African Perspectives on the Fourth Industrial Revolution seeks to identify the challenges and opportunities the 4IR presents to South Africa and the rest of the African continent especially to workers and marginalised sectors of society Authors examine the prerequisites for the successful introduction of the 4IR including infrastructure skilled personnel and appropriate regulation They underline the importance of inclusive innovation with a deliberate objective to create net new jobs and reduce inequality The 4IR is well established in many parts of the world with technological advances driving profound social and economic change However for many developing countries particularly countries in Africa the 4IR may not offer the anticipated leap forward There is a danger that the continent may find itself dictated to by experiences that are not in tune with its social contexts
