UofU Tree Identification Tour

Michael Kuhns, Forestry Extension Specialist and Meridith Perkins, State Urban Forestry Coordinator

Trees on the University of Utah (UofU) campus are very diverse. As a designated State Arboretum the UofU values its urban forest resources and readily shares them with the public. Here we highlight some of the most interesting trees in the western part of campus, including key identifying characteristics for each species. Green markers indicate gymnosperms and yellow angiosperms. Visit <http://www.uofu.edu> to find this tour on the web with an interactive map and GPS coordinates, current as of August 12, 2011. Consider carrying a tree identification book with you when you go out. Tree identification tips and references are listed on the last page.
