REVIEWS FOR MARK ROBERTS A fast paced chilling novel Short chapters crackling dialogue and action that never lets up for a single moment Mark Roberts is what British crime fiction has been looking for

CRIMESQUAD Intricate fast paced with a sense of the macabre A genuinely innovative crime writer **DAILY MAIL** Dark gripping and believable Roberts intimate knowledge of Liverpool makes the city into a sinister character of itself **GRAHAM MASTERTON** This is one of the most thought provoking powerful serial killing murders I ve ever read It s brutal but I found that the plot was so deep so twisted intense and clever that there was no way I could put the book down until the final page

BESTSELLING CRIME THRILLERS *This Way Up: The Tale of a Timid Nobody Who Became a Gyroplane Pilot* Shirley

Jennings, 2024-10-29 This is the story of a shy and unremarkable nobody who learned to be a gyroplane pilot and consequently discovered a wider world Bored with the daily routine in the 1980s a spur of the moment decision to fly a light

aircraft changed the entire course of my life I had no intention of becoming a pilot people like me don't do things like that but flying soon grew mundane and the initial thrill wore thin In an effort to recapture that lost spark of wonder I tried a small helicopter and became captivated by the rotary winged bug My fate was sealed when just a couple of months later I saw Wing Commander Ken Wallis the real James Bond flying his famous gyroplane Little Nellie The addiction was incurable and I was quite beyond help However gyroplanes have a bad reputation and people tried hard to dissuade me With so few gyroplane enthusiasts scattered across the UK in the pre Internet 1990s it felt like trying to join a secret society The only available machines were single seat and the only way to learn to fly was to own one No one said this was going to be easy My quest led me to Cornwall where a small group of autorotational veterans took me under their collective wing Thanks to them Delta J was born and they taught me how to stay alive working from the ground up Twenty years later my rotary winged obsession took this hesitant mouse across the English Channel where I discovered the unimaginable freedom of the French ultralight world My tiny rotorcraft and I are now part of that world It has been a voyage of discovery and new horizons with ups and downs in every sense a journey I could never have imagined when I took that first aeroplane flight in 1985 Gyroplanes have been my greatest adventure
