

SMART.

SMART Response™ PE

interactive response system

"With SMART Response, teachers have a new and interesting learning tool to help develop tests, surveys, games, lessons and presentations."

Frank Mueller, Teacher,
Bowcraft Elementary School,
Calgary, Alberta, Canada

Gain accurate and immediate insight into student learning with the SMART Response PE interactive response system, designed for K-12 classrooms. The system combines wireless remotes for clickers, a receiver and powerful assessment software, so you can create planned or spontaneous questions and instantly tally responses. And with SMART Notebook™ collaborative learning software, you can add interactive and multimedia content to your assessments, making them more engaging.

Create assessments with ease

It's easy to spontaneously add questions to lessons and prepare quizzes, tests and exams. Using SMART Response PE with SMART Notebook software, you can create questions that are easily integrated into any lesson or assessment activity. You can also choose from hundreds of ready-made SMART Response question sets available from the SMART Exchange™ website.

Deliver questions efficiently

When you deliver a question to your class, students can use their remotes to instantly respond. It's an ideal way to assess knowledge, since even the shyest student can feel comfortable answering questions. And you can tag questions by educational standards and cognitive levels, giving you deeper insight into student learning.

Manage data effortlessly

Teacher Tools is a management feature that allows you to create class lists, conduct assessments, track student test results and view performance reports – all from one location. Assessment results are automatically added to the built-in gradebook and saved in a single file, which helps you conveniently organize data.

Evaluate results quickly

Now you can create assessment reports as simple or as detailed as you need – from personalized reports on individual students to high-level comparisons of class performance. Plus, test summaries are displayed in easy-to-read pie charts and bar graphs, allowing you to quickly evaluate performance and test results.
