Serviceology for Smart Service System Yuriko Sawatani, James Spohrer, Stephen Kwan, Takeshi Takenaka, 2016-10-05
Services are key activities in a globalized economy and they also underlie the quality of life of local residents. The advanced work presented in this book was selected from the proceedings of the Third International Conference on Serviceology ICServ2015 held July 7-9, 2015 in San Jose, CA, USA. The conference was supported by the Society for Serviceology. The society was established in 2012 in Japan to explore the scientific systematization of services and to promote technological developments for solutions to industrial issues. This book provides a useful general guide to the state of the art in the theory and practice of services. It can also serve as a valuable reference book for researchers in a wide range of fields from engineering to marketing and economics.

Cybernetics and Systems Sergio Barile, Raul Espejo, Igor Perko, Marialuisa Saviano, 2018-12-07
Society is now facing challenges for which the traditional management toolbox is increasingly inadequate. Well-grounded theoretical frameworks such as systems thinking and cybernetics offer general level interpretation schemes and models that are capable of supporting understanding of complex phenomena and are not impacted by the passage of time. This book serves the knowledge society to address the complexity of decision making and problem solving in the 21st century with contributions from systems and cybernetics. A multi-disciplinary approach has been adopted to support diversity and to develop inter and trans-disciplinary knowledge within the shared thematic of problem solving and decision making in the 21st century. Its conceptual thread is cyber-systemic thinking and its realisation is supported by a wide network of scientists on the basis of a highly participative agenda. The book provides a platform of knowledge sharing and conceptual frameworks developed with multi-disciplinary perspectives which are useful to better understand the fast-changing scenario and the complexity of problem solving in the present time.
