An Applied Guide to Process and Plant Design Sean Moran, 2019-06-12 An Applied Guide to Process and Plant Design 2nd edition is a guide to process plant design for both students and professional engineers. The book covers plant layout and the use of spreadsheet programs and key drawings produced by professional engineers as aids to design subjects that are usually learned on the job rather than in education. You will learn how to produce smarter plant design through the use of computer tools including Excel and AutoCAD. What If Analysis, statistical tools, and Visual Basic for more complex problems. The book also includes a wealth of selection tables covering the key aspects of professional plant design which engineering students and early career engineers tend to find most challenging. Professor Moran draws on over 20 years experience in process design to create an essential foundational book ideal for those who are new to process design compliant with both professional practice and the IChemE degree accreditation guidelines. Includes new and expanded content including illustrative case studies and practical examples. Explains how to deliver a process design that meets both business and safety criteria. Covers plant layout and the use of spreadsheet programs and key drawings as aids to design. Includes a comprehensive set of selection tables covering aspects of professional plant design which early career designers find most challenging.

Digitalization and Analytics for Smart Plant Performance Frank (Xin X.) Zhu, 2021-04-06 This book addresses the topic of integrated digitization of plants on an objective basis and in a holistic manner by sharing data applying analytics tools and integrating workflows via pertinent examples from industry. It begins with an evaluation of current performance management practices and an overview of the need for a Connected Plant via digitalization followed by sections on Connected Assets, Improve Reliability and Utilization, Connected Processes, Optimize Performance and Economic Margin, and Connected People. Digitalizing the Workforce and Workflows and Developing Ownership and Digital Culture then culminating in a final section entitled Putting All Together Into an Intelligent Digital Twin Platform for Smart Operations and Demonstrated by Application cases.

Smart Plant Breeding for Vegetable Crops in Post-genomics Era Saurabh Singh, Devender Sharma, Susheel Kumar Sharma, Rajender Singh, 2023-01-01 This book dispenses a comprehensive coverage of up to date account of genomics and genome editing enriched smart plant breeding approaches for enhancing genetic gains in vegetable crops in the post genomics era. The main focus of the present volume is to illuminate the applications of new techniques evolved in the post genomics era. The techniques covered are high throughput sequencing of DNA and RNA, genome editing, epigenetics and epigenomics, genotype by sequencing, GBS, QTL seq and RNA seq for transcriptome analysis. Vegetables are the important component of healthy diet, source of energy and hold a promising position in building up a strong immunity. Zero hunger and attaining the food and nutritional security is the top priority of United Nations development goals. Smart breeding of food and vegetable crops to fight the challenges ahead in sustainable manner by keeping the harmony with nature is an important approach to fulfill the United Nations Sustainable

Development Goals UN SDGs This edited book highlights the modern results in smart vegetable breeding in the post genomics era and forecasts crucial areas of future needs It is an important reference for the readers students researchers scientists in academia and research industries to provide them comprehensive information of innovative approaches for crop improvement in the post genomics era and in the era of and climate change Even the readers academia social activists and others fond of reading will get a fair idea of journey travelled so far and future roadmap for fighting the challenges ahead to meet the sustainable development goals **Smart Plant Breeding for Field Crops in Post-genomics Era** Devender Sharma, Saurabh Singh, Susheel K. Sharma, Rajender Singh, 2023-04-28 This book emphasizes on cutting edge next generation smart plant breeding approaches for maximizing the use of genomic resources generated by high throughput genomics in the post genomic era Through this book the readers would learn about the recent development in the genomic approaches such as genotype by sequencing GBS for genomic analysis SNPs Single Nucleotide Polymorphism whole genome re sequencing WGRS and RNAseq for transcriptomic analysis DEGs Differentially Expressed Genes To maximize the genetic gains in the cereal food crops the book covers topics on transgenic breeding genome editing high throughput phenotyping reliable precision phenotyping and genomic information based analysis In the era of climate change and the ever increasing population food security and nutritional security are the primary concern of plant breeders growers and policymakers to address the UN s sustainable development goals Chapters of this book cohere around these goals and covers techniques such as QTL mapping association studies candidate gene identification omics RNAi through micro RNA miRNA small interfering RNA siRNA and artificial micro RNA amiRNA It also covers other genomic techniques like antisense technology genome editing CRISPR cas9 base editing and epigenomics that assist the crop improvement programmes to fulfil the UNs sustainable development goals It explores the influence of rapidly available sequencing data assisting in the next generation breeding programmes This volume is a productive resource for the students researchers scientists teachers public and private sector stakeholders involved in the genetic enhancement of cereal crops Smart Plant Factory Toyoki Kozai, 2018-11-11 This book describes the concept characteristics methodology design management business recent advances and future technologies of plant factories with artificial lighting PFAL and indoor vertical farms The third wave of PFAL business started in around 2010 in Japan and Taiwan and in USA and Europe it began in about 2013 after the rapid advances in LED technology The book discusses the basic and advanced developments in recent PFALs and future smart PFALs that emerged in 2016 There is an emerging interest around the globe in smart PFAL R 3 lack of understanding of the technical and engineering aspects of PFAL among horticulturists 4 lack of knowledge of the technical challenges and opportunities in future PFAL businesses among business professionals policy makers and investors and 5 lack of a suitable textbook on the recent advances in PFAL technologies and business for graduate students and young researchers This book covers all the aspects of successful smart PFAL R D and business Closed Nuclear Fuel Cycle with Fast Reactors Evgeny

Adamov,2022-07-18 Closed Nuclear Fuel Cycle with Fast Reactors Handbook of Russian Nuclear Power provides unique insights into research and practical activities from leading Russian experts It presents readers with unprecedented insight and essential knowledge surrounding nuclear fast reactor technologies as well as novel methods to close the nuclear fuel cycle to achieve cleaner more environmentally friendly and more efficient nuclear power Using the Proryv Project as a framework the book s contributors provide detailed descriptions of technologies in development in Russia allowing readers from around the globe to gain a thorough understanding which they can then apply to their own research and practice Nuclear engineers and technologists of fast reactors advanced reactors and fuel cycles will use this book as a guide to inform new technology development They will be able to use the experiences from the Proryv Project to drive fast reactor development with closed fuel cycles for the future Provides a presentation of new nuclear reactor and fuel cycle technologies within the unique framework of Russia s Proryv Project Presents novel technologies to close the nuclear fuel cycle to promote cleaner and more environmentally protective nuclear power Includes thorough coverage on the topic including core design coolants fuels accident protection and waste management technologies Process Plant Layout Sean Moran,2016-11-16 Process Plant Layout Second Edition explains the methodologies used by professional designers to layout process equipment and pipework plots plants sites and their corresponding environmental features in a safe economical way It is supported with tables of separation distances rules of thumb and codes of practice and standards The book includes more than seventy five case studies on what can go wrong when layout is not properly considered Sean Moran has thoroughly rewritten and re illustrated this book to reflect advances in technology and best practices for example changes in how designers balance layout density with cost operability and safety considerations The content covers the why underlying process design company guidelines providing a firm foundation for career growth for process design engineers It is ideal for process plant designers in contracting consultancy and for operating companies at all stages of their careers and is also of importance for operations and maintenance staff involved with a new build guiding them through plot plan reviews Based on interviews with over 200 professional process plant designers Explains multiple plant layout methodologies used by professional process engineers piping engineers and process architects Includes advice on how to choose and use the latest CAD tools for plant layout Ensures that all methodologies integrate to comply with worldwide risk management legislation **Chemical Engineering Progress** ,2009 *Collaborate Computing: Networking, Applications and Worksharing* Shangguang Wang,Ao Zhou,2017-07-04 This book constitutes the thoroughly refereed proceedings of the 12th International Conference on Collaborative Computing Networking Applications and Worksharing CollaborateCom 2016 held in Beijing China in November 2016 The 66 papers presented were carefully reviewed and selected from 116 submissions and focus on topics such as participatory sensing crowdsourcing and citizen science architectures protocols and enabling technologies for collaborative computing networks and systems autonomic computing and quality of services in collaborative networks systems and

Handbook of Research on the Internet of Things Applications in Robotics and Automation Singh, Rajesh, Gehlot, Anita, Jain, Vishal, Malik, Praveen Kumar, 2019-09-13 With near universal internet access and ever advancing electronic devices the ability to facilitate interactions between various hardware and software provides endless possibilities Though internet of things IoT technology is becoming more popular among individual users and companies more potential applications of this technology are being sought every day There is a need for studies and reviews that discuss the methodologies concepts and possible problems of a technology that requires little or no human interaction between systems The Handbook of Research on the Internet of Things Applications in Robotics and Automation is a pivotal reference source on the methods and uses of advancing IoT technology While highlighting topics including traffic information systems home security and automatic parking this book is ideally designed for network analysts telecommunication system designers engineers academicians technology specialists practitioners researchers students and software developers seeking current research on the trends and functions of this life changing technology Каталог САПР. Программы и производители Павел Латышев, 2016-06-27 Computer Software Program for On-line Process Control of Production of Portland-cement Concrete Steven A. Ragan, Billy D. Neeley, 1997 This report presents the results of a research program to develop a computer software program SmartPlant which could reduce the cost of concrete mixtures and increase construction productivity by minimizing the adverse effects of materials and mixture variations upon construction operations SmartPlant is comprised of five component programs Most attention was given to seeMIX the mixture proportioning program A laboratory evaluation of this program was conducted in which simulated paving structural and mass concrete mixtures were proportioned using current American Concrete Institute ACI proportioning practices and seeMIX technology Two field evaluations of seeMIX were also conducted SeeMAT A the aggregate database program was also evaluated under field conditions on two occasions SeeMAT C the cement database program and seeMAT P the pozzolan database program were evaluated in the laboratory SeeSTAT the statistical database program was not evaluated The results indicated that seeMIX mixture proportioning technology can proportion concrete mixtures having fresh and hardened properties equal to and in some instances superior to current ACI proportioning practices when richer mixtures such as those used in paving or structural applications are being proportioned SeeMIX was

less effective in proportioning lean mass concrete mixtures SeeMAT A seeMAT C and seeMAT P performed well and were judged to be useful tools both as components of SmartPlant and as stand alone tools While the individual components of SmartPlant were evaluated numerous logistical and technical problems prevented the evaluation of a fully automated SmartPlant system either in the laboratory or the field *GeoWorld* ,2000

Decoding **Smartplant Review User Manual**: Revealing the Captivating Potential of Verbal Expression

In a time characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its capability to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring.
