Routledge Companion to Literature and Feminism Rachel Carroll, Fiona Tolan, 2023-12-01 The Routledge Companion to Literature and Feminism brings unique literary critical and historical perspectives to the relationship between women's writing and women's rights in British contexts from the late eighteenth century to the present. Thematically organised around five central concepts: Rights, Networks, Bodies, Production and Activism, the Companion tracks vital questions and debates offering fresh perspectives on changing priorities and enduring continuities in relation to women's ongoing struggle for liberty and equality. This groundbreaking collection brings into focus the historical and cultural conditions which have shaped the formation of British literary feminisms including the legacies of slavery, colonialism and Empire. From the political novel of the 1790s to early twentieth century suffrage theatre and contemporary ecofeminism and from the mid-Victorian antislavery movement to anti-fascist activism in the 1930s and working class women's writing groups in the 1980s, this book testifies to the diverse and dynamic character of the relationship between literature and feminism. Featuring contributions from leading feminist scholars, the Companion offers new insights into the crucial role played by women's literary production in the evolving history of women's rights discourses, feminist activism and movements for gender equality. It will appeal to students and scholars in the fields of women's writing, British literature, cultural history and gender and feminist studies.

American Economist, 1920 *Semiotics of Happiness* Ashley Frawley, 2015-02-26 The *Semiotics of Happiness* examines the rise of happiness and its various satellite terminologies as a social and political semiotic, exploring its origins in the US and subsequent spread into the UK and across the globe. The research takes as its starting point the development of discussions about happiness in UK newspapers in which dedicated advocates began to claim that a new science of happiness had been discovered and argued for social and political change on its behalf. Through an in-depth analysis of the written and visual rhetoric and subsequent activities of these influential claims makers, Frawley argues that happiness became a serious political issue not because of a growing unhappiness in society nor a demand on the ground for new knowledge about it, but rather because influential and dedicated insiders took the issue on at a cultural moment when problems cast in emotional terms were particularly likely to make an impact. Emerging from the analysis is the observation that while apparently positive and light-hearted, the concern with happiness implicitly affirms a vulnerability model of human functioning, encourages a morality of low expectations and, in spite of the radical language used to describe it, is ultimately conservative and ideally suited to an era of no alternative to capitalism.

Ford Madox Ford and the Regiment of Women Joseph Wiesenfarth,2005 Engaging and energetic this biography of Ford Madox Ford presents the modernist writer in a previously unexplored way Other biographies have approached Ford as an auth indeed his memoirs give almost no indication that the women in his life were of any importance or in fact that they ever existed Literary scholar Joseph Wiesenfarth revises this approach by tracing Ford s relationships with four women central to his life Wiesenfarth shows how these four women Violet Hunt Jean Rhys Stella Bowen and Janice Biala established themselves as artists in their own right and depicted Ford in their works as more than the proper man he thought himself to be For the women he was both a lover and a leaver a collaborator and a companion With an eye to original paintings and manuscripts Wiesenfarth examines the artistic and romantic interplay among these writers painters and lovers This book features a beautifully illustrated color and black and white gallery of Bowen and Biala paintings
