impacts The contributors describe daily life in many different places in the world and then calculate the environmental impact of these ways of living from the perspective of ecological and carbon footprints This leads to comparison and discussion of what living within the limits of the planet might mean Current footprints for countries are derived from national statistics and these hide the variety of impacts made by individual people and the choices they make in their daily lives This book takes a bottom up approach by calculating the footprints of daily living The purpose is to show that small changes in behaviour now could avoid some very challenging problems in the future Offering a global perspective on the question of sustainable living this book will be of great interest to anyone with a concern for the future as well as students and researchers in environmental studies human geography and development studies **Citroen** Lance Cole,2014-03-31 In this new view on the Citroen story automotive aviation writer and design specialist Lance Cole investigates not just the details of the cars of Citroen but the aeronautical and cultural origins that lay behind Citroen s form and function The book digs deep into the ethos of Automobiles Citroen to create a narrative on one of the greatest car manufacturers in history Using interviews translations archive documents and specially commissioned photographs the Citroen journey is cast in a fresh perspective It explains in detail the influences upon Citroen design Voisin Lefebvre Berton Boulanger Mages Opron and recent Citroen designers such as Coco Blakeslee and Soubirou As well as all the men of the great period of 1920s 1970s expansion cites less well known names of Citroen s French engineering design and influence such as Cayla Gerin Giret Harmand Dargent and others to give a full picture of Citroen heritage **Customs Issuance System Index** U.S. Customs Service.
