Organizational Cultures of Remembrance Daniel Mai, 2015-05-19 In a business world predominantly oriented toward the future it has paradoxically become ever more common that companies turn towards their pasts This book empirically explores the phenomenon of organizational remembrance from a holistic cultural perspective Based on a twelve month

ethnographic case study conducted at the headquarters of the German automobile company AUDI AG this study dissects the relationships between memory identity and image in a corporate setting The greater aim in doing so is twofold First this study examines exactly why and how a company officially manages its past in terms of history and tradition And second this study scrutinizes what effect organizational remembrance has on the workforce how it impacts their collective identification with a corporate community and influences their understanding of their daily working life By investigating the interplay between different stakeholder groups as well as their practices media mental models and other vehicles of remembrance an integrated account is offered which makes sense of the complex cultural forces at work in the corporate handling of the past the present and the future

The Bosasa Billions James-Brent Styan,Paul Vecchiatto,2019-09-01 The Bosasa corruption scandal cost South Africa billions of rands while the politicians involved were bought for as little as braai packs and booze Best selling author James Brent Styan and co writer Paul Vecchiatto unpack the sordid story of how one company exploited the greed of corrupt politicians and bureaucrats to establish an extensive tender network stretching right to the top of the ANC government

Vehicle Excise Duty as Environmental Tax Great Britain. Parliament. House of Commons. Environmental Audit Committee,2008-08-04 This year s budget made some significant changes to annual road tax vehicle excise duty or VED The main changes included introduction of six new VED bands from 2009 10 bringing the total number of bands to 13 applying this new regime of 13 bands to existing cars on the road first registered on or after 1 March 2001 and introduction of a new rate of VED for new cars in the first year in which they are bought The Environmental Audit Committee s aims in this report were to examine the projected environmental impacts of these changes to review how fair these changes are and to make recommendations to the Treasury as to how it should proceed The Committee felt that there was nothing intrinsically wrong in the rebanding of cars registered since 2001 but that there was a lack of data about the financial impacts of these change on lower income groups The new first year rates were welcomed However concerns remain that the differentials between VED bands are still not large enough to drive market transformation The Treasury should have taken much greater care to explain the changes in VED in the Budget If the point of green taxes is to change behaviour they need to be properly publicised In general the Treasury needs to develop a proper communications strategy
