,1928 Seagoing John McCormick,2018-04-17 The great virtue of McCormick s memoirs is their blunt honesty He writes with a persuasive directness about what happened to him and what he believes Arts and Letters The title of John McCormick s autobiographical book may be taken both literally and symbolically In a literal sense going to sea was an early and powerful ambition while seagoing is also a metaphor for the twists and turns in a rootless life a long voyaging This is not a conventional autobiography It is personal only as necessary for continuity and never confessional The essays center upon telling episodes in the author s life and strive for objectivity and accuracy about the recent past both personal and historical He does so as he writes without any pretension of producing a true history The events of his life are necessarily unique to him thus he finds uniqueness in the events that impinged upon him McCormick begins with his early years growing up in the American mid West during the Depression a time of broken family relations and random jobs He relates his falling away from religious faith He describes his first experience as a sailor in a tanker which gave him physical liberation a world free of constrictions as with Hemingway In discussing his early teaching experience he gives a vivid portrayal of Germany in the immediate postwar years along with observations of residual pro Hitler sentiment and the awkward circumstances for Germans of the immediate past He devotes a chapter to a moving memoir of his friend Francis Fergusson eminent Rutgers University scholar McCormick also relates his experience as an amateur bullfighter and reiterates his defense of bullfighting as an art He paints a vivid picture of an adventure at sea while working on a definitive biography of George Santayana reflecting also on changes in the genre of biography with its prevailing emphasis on trivia and sensationalism In describing his retirement to England McCormick describes the conflict between nationalism and expatriation He punctuates details of his naval war experiences with thoughtful observations on military combat Finally in his closing chapter Coda Closet Space McCormick attempts to make sense of old age and death This autobiographical account of a well lived life encompasses far more than a splendid teaching and literary career It will provide insight and good reading for those who know McCormick s scholarly work for students of the humanities and for the general public interested in vivid prose John McCormick is professor emeritus of comparative literature at Rutgers University and honorary fellow of English and literature at the University of York He is the author of George Santayana A Biography Catastrophe and Imagination The Middle Distance and Fiction as Knowledge **Chambers' Edinburgh Journal** ,1836 **Chambers's Journal of Popular Literature, Science and Arts** ,1836 **Combating Security Challenges in the Age of Big Data** Zubair Md. Fadlullah,Al-Sakib Khan Pathan,2020-05-26 This book addresses the key security challenges in the big data centric computing and network systems and discusses how to tackle them using a mix of conventional and state of the art techniques The incentive for joining big data and advanced analytics is no longer in doubt for businesses and ordinary users alike Technology giants like Google Microsoft Amazon Facebook Apple and companies like Uber Airbnb NVIDIA Expedia and so forth are continuing to explore new ways to collect and analyze big data to provide their customers with interactive services and new experiences With any

discussion of big data security is not however far behind Large scale data breaches and privacy leaks at governmental and financial institutions social platforms power grids and so forth are on the rise that cost billions of dollars The book explains how the security needs and implementations are inherently different at different stages of the big data centric system namely at the point of big data sensing and collection delivery over existing networks and analytics at the data centers Thus the book sheds light on how conventional security provisioning techniques like authentication and encryption need to scale well with all the stages of the big data centric system to effectively combat security threats and vulnerabilities The book also uncovers the state of the art technologies like deep learning and blockchain which can dramatically change the security landscape in the big data era **International Record of Medicine and General Practice Clinics** Frank Pierce Foster,1887
