Corporate sabotage was not in Tanzie's job description per se, but she proves to be a natural at it as well as her own little deceits. Tanzie Lewis used to have it all: The stylish wife of a successful oil executive at the top of the Houston social scene, she used to spend her days playing scratch golf or lunching with friends at the club. That was before she was dumped in favor of a beautiful younger woman and the global financial crisis wreaked havoc on her divorce settlement. Now at 52, Tanzie finds herself depressed and alone in Tulsa, watching her waist size grow and her professional opportunities shrink, working as a minion for clueless bosses in the internal audit department of the Bishop Group. So what's a girlie to do? Snoop. Taking advantage of Bishop Group's security weaknesses, Tanzie begins to unravel the intricate warp and woof of corporate fraud, manipulation, and a cover-up that enrages her. Avenging the death of innocent Houstonians after a massive pipeline explosion and uncovering her own hidden talents for sleuthing and cleverly tampering with the system, Tanzie dishes out her own justice to get even and to get a little something for herself. **Headspace** Amber Marks, 2011-12-31

Crime detection has gone to the dogs and squirrels are being busted for espionage. If you've never wondered about the new direction of intelligence-led policing in our society, now is the time to start. It was a chance encounter with a police sniffer dog that drew criminal lawyer Amber Marks into the hidden world of the science of smell and its law enforcement applications. Soon she stumbled into a wonderland of contemporary surveillance where the spying skills of bees, dolphins, and a myriad of other critters were being harnessed to build a secure world of bio-intelligence. From the businesses, scientists, and military departments developing new smell-based surveillance technologies to good old-fashioned police dogs, Amber discovered a secret world of security forces where animals and scent are as important as intelligence agents and CCTV. Part polemical exploration of our burgeoning surveillance society, part humorous memoir, this intriguing book will capture your imagination and get you wondering just who stands to benefit from all this security.
