Nahuas and Spaniards James Lockhart,1991 The Nahua Indians of central Mexico often misleadingly called Aztecs after the quite ephemeral confederation that existed among them in late pre Hispanic times were the most populus of Mesoamerica s cultural linguistic groups at the time of the Spanish conquest They remained at the center of developments for centuries thereafter since the bulk of the Hispanic population settled among them and they bore the brunt of cultural contact This collection of thirteen essays five of them previously unpublished by the leading authority on the postconquest Nahuas and Nahua Spanish interaction brings together pieces that reflect various facets of the author s research interests

Underlying most of the pieces is the author s pioneering large scale use of Nahua manuscripts to illuminate the society and culture of native Mexicans in the Spanish colonial period The picture of the Nahuas that emerges shows them far less at odds with the colonial world form it what is useful to them and far more capable to maintaining their own pre conquest identity than has previously been suggested **Bridging Phonics for Middle-Grade Students, Grades 5 - 8** Shireman,2008-08-27 Support students who have not yet mastered basic phonics skills using Bridging Phonics for Middle Grade Students for grades 5 and up This 112 page book includes reproducible activities that cover skills such as using the dictionary consonant and vowel sounds blends digraphs silent letters syllabication prefixes and suffixes and compound words The book also includes a complete answer key and extension suggestions for teachers **The History and Origin of Language** A.S. Diamond,2023-12-30 First Published in 1959 The history and origin of language deals with one of the most important and most fascinating subject matter of all human historical problems that of the origin and development of language It is the first attempt to solve it not by a priori methods but by marshalling and analyzing the whole of the evidence It is a work of great originality by a scholar who has written other well known sociological works and the treatment is that of the sociologist Dr Diamond writes for the intelligent layman as well as the linguist He first seeks the true nature of language and its true function and structure in modern society and traces the paths along which language has developed and changed in its known history both in the forms of its words and in their meanings examining for this purpose many languages of civilized and primitive peoples These paths he then pursues backwards with the aid of data from human physiology the language of children and observations of animal behaviour and shows how all these paths converge to one beginning and deduces how language originated both the form of its first words and their meanings He finally shows relics of these earliest words and meanings in languages which still survive The arguments are cumulative and many sided and the case made is convincing This is a must read for scholars and researchers of linguistics Structured Literacy Planner Louise Spear-Swerling,2024-03-29 This book describes a set of explicit approaches to teaching reading that have become known as Structured Literacy and that are especially effective for struggling readers Chapter 1 explains in detail the two main themes involving Structured Literacy and poor reader profiles and why they are important to successful teaching of poor readers Chapter 2 describes the structure of English at multiple levels words sentences and longer discourse a grasp of which is essential for SL teaching of both word reading and comprehension Chapter 3 focuses on assessment of poor readers specifically how to determine poor reader profiles and target interventions properly for individual students as well as how to use diagnostic assessments to further identify specific skills to address in intervention Chapters 4 and 5 focus on students with a profile of Specific Word Recognition Difficulties that is difficulties specific to word reading Chapters 6 and 7 address students with a profile of Specific Reading Comprehension Difficulties which involves students who have poor reading comprehension despite good word reading The topic of Chapters 8 and 9 involves students with a profile of Mixed Reading

Difficulties who have difficulties both in word reading and language comprehension   *English Historical Linguistics 2006* Maurizio Gotti,Marina Dossena,Richard Dury,2008 The papers collected in this volume were first presented at the 14th International Conference on English Historical Linguistics Bergamo 2006 Alongside studies of syntax morphology lexis and semantics published in two sister volumes many innovative contributions focused on geo historical variation in English A carefully peer reviewed selection including two plenary lectures appears here in print for the first time bearing witness to the increasing scholarly interest in varieties of English other than so called standard English In all the contributions well established methods of historical dialectology combine with new theoretical approaches in an attempt to shed more light on phenomena that have hitherto remained unexplored or have only just begun to be investigated Perceptual dialectology is also taken into consideration and state of the art tools such as electronic corpora and atlases are employed consistently ensuring the methodological homogeneity of the contributions   **Non-native Speech** Ulrike Gut,2009 Based on an innovative corpus based approach this book offers a comprehensive survey of the phonological and phonetic properties of L2 speech in English and German The first part of the book critically examines current theoretical models and research methodologies in the field of second language acquisition of phonology and describes the advances that have been made in corpus linguistics over the past few years in particular the development of phonological learner corpora It furthermore presents the first learner corpus of L2 English and L2 German that is fully aligned and has extensive phonological annotations the LeaP corpus The second part of the book describes the results of the quantitative and qualitative corpus analyses in the following areas of non native speech fluency final consonant cluster realisation vowel reduction and speech rhythm intonation and general foreign accent In addition the influence of many non linguistic factors including instruction and a stay abroad on the phonological properties of non native speech is explored   *International Journal of American Linguistics* ,1959
