García-Mainar, 2016-06-10 This book explores the formal and thematic conventions of crime film the contexts in which these have flourished and their links with the social issues of a globalized world The crime film has traditionally been identified with suspense a heterogeneous aesthetic and a tacit social mind However a good number of the crime films produced since the early 2000s have shifted their focus from action or suspense and towards melodrama in narratives that highlight the social dimension of crime intensify their realist aesthetics and dwell on subjectivity With the 1940s wave of Hollywood semi documentary crime films and 1970s generic revisionism as antecedents these crime films find inspiration in Hollywood cinema and constitute a transnational trend With a close look at Steven Soderbergh's Traffic 2000 David Fincher's Zodiac 2007 Jacques Audiard's Un prophète 2009 and Tomas Alfredson's Tinker Tailor Soldier Spy 2011 this book sets out the stylistic and thematic conventions contexts and cultural significance of a new transnational trend in crime film

Elemental Narratives Enrico Cesaretti, 2020-09-29 Over the past century the Italian landscape has undergone exceedingly rapid transformations shifting from a mostly rural environment to a decidedly modern world This changing landscape is endowed with a narrative agency that transforms how we understand our surroundings Situated at the juncture of Italian studies and ecocriticism and following the recent material turn in the environmental humanities Elemental Narratives outlines an original cultural and environmental map of the bel paese Giving equal weight to readings of fiction nonfiction works of visual art and physical sites Enrico Cesaretti investigates the interconnected stories emerging from both human creativity and the expressive eloquence of global materials such as sulfur petroleum marble steel and asbestos that have helped make and simultaneously unmake today's Italy affecting its socio environmental health in multiple ways Embracing the idea of a decentralized agency that is shared among human and nonhuman entities Cesaretti suggests that engaging with these entangled discursive and material texts is a sound and revealing ecocritical practice that promises to generate new knowledge and more participatory affective responses to environmental issues both in Italy and elsewhere Ultimately he argues that complementing quantitative data based information with insights from fiction and nonfiction the arts and other humanistic disciplines is both desirable and crucial if we want to modify perceptions and attitudes increase our awareness and understanding and in turn develop more sustainable worldviews in the era of the Anthropocene Elegantly

Seger, 2022-06-10 In *Toxic Matters* Monica Seger considers two Italian environmental disasters an isolated factory explosion in Seveso just north of Milan in 1976 and the ongoing daily toxic emissions from the Ilva steelworks in the Apulian city of Taranto Both have exposed residents to high concentrations of the persistent organic pollutant known as dioxin Although different in terms of geography and temporality Seveso and Taranto are deeply united by this nearly imperceptible substance and by the representational complexities it poses They are also united by creative narrative expressions in literary cinematic and other forms that push back against dominant contexts and representations perpetuated by state and industrial actors Seger traces a dialogue between Seveso and Taranto exploring an interplay between bodies soil industrial emissions and the wealth of dynamic particulate matter that passes in between At the same time she emphasizes the crucial function of narrative expression for making sense of this modern day reality and for shifting existing power dynamics as exposed communities exercise their voices While *Toxic Matters* is grounded in Italian cases and texts it looks outward to the pressing questions of toxicity embodiment and storytelling faced by communities worldwide **La Città Altra. Della Diversità Urbana: Luoghi E Paesaggi Dei Privilegi E Del Benessere, Dell'isolamento, Del Disagio, Della Multiculturalità. Ediz. Italiana E Inglese Francesca Capano, Maria Ines Pascariello, Massimo Visone, 2018-10 This volume proposes a rich corpus of papers about the Other City a subject only few times dealt with but worthy of all our attention it imposes itself on the scene of international modern and contemporary historiography for its undeniable topicality Throughout history the city has always had to deal with social otherness i e with class privileges and consequently with discrimination and marginalization of minorities of the less well off of foreigners in short with the differences in status culture religion So that the urban fabric has ended up structuring itself also in function of those inequalities as well as of the strategic places for the exercise of power of the political military or social control of the spaces for imprisonment for the sanitary isolation or for the temporary remedy to the catastrophes From the first portraits of cities made and diffused at the beginning of the fifteenth century for political exaltation purposes or for religious propaganda and for devotional purposes which often through increasingly refined graphic techniques distort or even deny the true urban image we reach at the dawn of contemporary history the new meaning given by scientific topography and new methods of representation these latter aimed at revealing the structure and the urban landscape in their objectivity often unexpected for who had known the city through the filter of regime iconography The representation of the urban image still shows the contradictions of a community that sometimes includes and even exalts the diversities other times rejects them showing the unease of a difficult integration

desiderare una serata al pattinodromo o avere un fratello che comandi il branco o trovare il tuo nome scritto su una panchina. Lo sanno bene Anna e Francesca amiche inseparabili che tra quelle case popolari si sono trovate e scelte. Quando il corpo adolescente inizia a cambiare a esplodere sotto i vestiti in un posto così non hai alternative o ti nascondi e resti tagliata fuori oppure sbatti in faccia agli altri la tua bellezza la usi con violenza e spera che ti aiuti a essere qualcuno. Loro ci provano convinte che per sopravvivere basti lottare ma la vita feroce e non si piega scorre immobile senza vie d'uscita. Poi un giorno arriva l'amore per arriva male le poche certezze vanno in frantumi e anche l'amicizia invincibile tra Anna e Francesca si incrina sanguina comincia a far male. Attraverso gli occhi di due ragazzine che diventano grandi Silvia Avallone ci racconta un'Italia in cerca d'identità e di voce apre uno squarcio su un'inedita periferia operaia nel tempo in cui si dice la classe operaia non esiste più. E lo fa con un romanzo potente che sorprende e non si dimentica.

The Last Forty Years of Italian Popular Culture Enrico Minardi, Paolo Desogus, 2020-02-18. What is Italian pop culture? This volume provides an answer to this question offering an insight into some of the most recent and interesting developments in the field of pop culture. The reader will find essays on a variety of topics including literature theater music social media comics politics and even Christmas. Each contribution here places stress on the popular. The main reference points guiding the chapters are in fact the pioneering works by Antonio Gramsci and Umberto Eco. The result is therefore a portrait of a country where mass participation in cultural events always accompanies some form of reflection on the national identity and other related issues. Historians and sociologists as well as musicologists and philosophers in addition to pop culture aficionados will find the text an engaging and indispensable read.

Russian Energy Chains

Margarita M. Balmaceda, 2021-05-11 Russia's use of its vast energy resources for leverage against post Soviet states such as Ukraine is widely recognized as a threat. Yet we cannot understand this danger without also understanding the opportunity that Russian energy represents. From corruption related profits to transportation fee income to subsidized prices many within these states have benefited by participating in Russian energy exports. To understand Russian energy power in the region it is necessary to look at the entire value chain including production, processing, transportation and marketing and at the full spectrum of domestic and external actors involved from Gazprom to regional oligarchs to European Union regulators. This book follows Russia's three largest fossil fuel exports: natural gas, oil and coal from production in Siberia through transportation via Ukraine to final use in Germany in order to understand the tension between energy as threat and as opportunity. Margarita M. Balmaceda reveals how this dynamic has been a key driver of political development in post Soviet states in the period between independence in 1991 and Russia's annexation of Crimea in 2014. She analyzes how the physical characteristics of different types of energy by shaping how they can be transported, distributed and even stolen affect how each is used not only technically but also politically. Both a geopolitical travelogue of the journey of three fossil fuels across continents and an incisive analysis of technology's role in fossil fuel politics and economics, this book offers new ways of thinking about energy in Eurasia and beyond.

Non è un pranzo di gala Alberto Prunetti, 2022-09-23 Uno spettro si aggira nel mondo delle lettere: lo spettro di una letteratura che racconta il mondo del lavoro dall'interno, fatta da scrittrici e scrittori di estrazione proletaria o appartenenti alla nuova classe lavoratrice precaria. Una letteratura che può avere forme, lingue, strutture e scopi diversi da quelli perpetuati nelle scuole di creative writing, la letteratura working class. Alberto Prunetti prova a definirne i tratti e ne ripercorre l'evoluzione rendendo manifesto il legame tra le storie che siamo disposti a leggere e ascoltare e le condizioni materiali dell'industria che a queste storie gira intorno. Questo libro che se ne frega della compostezza e delle buone maniere che saggio ma anche pamphlet, memoir, analisi critica, parla all'aspirante scrittore working class, ai lavoratori dell'editoria e ai lettori di qualunque classe e ci ricorda che i libri che riempiono i nostri scaffali sono scritti, scelti e pubblicati da un pezzo piccolissimo di mondo, ora di fare spazio anche a tutto il resto.
