The Anatomy of Neoliberalism and Education Maria Nikolakaki, 2022-01-01 This book is about the Anatomy of Neoliberalism and Education from a Marxist perspective It is the dialectical materialism of neoliberal ideas examining the material conditions of how these ideas and practices emerged and under what conditions Each of these elements is related to the other and can only be properly understood as part and parcel of the whole system of capitalism which links them together This book investigates neoliberalism's political cultural and financial tools It goes deep in the forces who have supported neoliberalism and how it became common sense It explores the imperialist outcomes and the social devastation it created It then goes to see how these ideas and policies have been implemented in education In short it is the materialist conception of the history of the American empire It then uses the analytic tools developed through this investigation to re read the neoliberal educational reforms
