Dimensional Analysis for Meds: Simplified Dosage Calculations Anna M. Curren, 2025-03-03 Dosage calculation can be very challenging and intimidating for students. However, renowned author and educator Anna Curren applies her experience, knowledge, and proven method to take the fear factor out of manual math in *Dimensional Analysis Simplified Dosage Calculations* Seventh Edition. She breaks down the subject using dimensional analysis, which reduces all calculations into a single easy-to-solve equation. Furthermore, her conversational writing style brings the students to a safe place in the often intimidating realm of math. The updated Seventh Edition presents only the essential information. The first section includes a chapter with an overview of the metric system as Curren states 98% of all calculations involve metric measures. The text is structured to feature content in small instructional steps followed by assessments to reinforce what has been learned.

Pharmacology - E-Book Constance G. Visovsky, Cheryl H. Zambroski, Shirley M. Hosler, 2023-12-18 Learn the principles of pharmacology and administer drugs safely. *Introduction to Clinical Pharmacology* 11th Edition provides the essential information that LPNs and vocational nurses need to administer medications in all practice settings. It shows how drugs and drug classes work so you can understand why drugs are given and evaluate the expected response as well as side effects and adverse effects. In each drug category, an overview of the nursing process outlines the nurse's role when administering drugs. This edition includes a new Drugs for Cancer Treatment chapter and Get Ready for the Next Generation NCLEX Examination case studies and questions to help you prepare for the newest version of the NCLEX exam. Written by an experienced team of authors led by Dr. Constance G. Visovsky, this book is the only pharmacology text designed specifically for LPN/LVNs. Ideal scope of content and readability for LPN/LVN programs provides illustrated need-to-know pharmacology information and includes a new Drugs for Cancer Treatment chapter. A focus on drug categories helps you understand the actions and uses of drug classes and provides a framework for safe, effective practice as new drugs are introduced to the market. Rationales accompany nursing actions, helping you understand why actions or precautions are necessary and to better communicate directions to patients and their families. Safety Alert boxes and Black Box Warnings highlight important nursing considerations for safe medication administration and monitoring. Lifespan Considerations boxes draw attention to information that is especially important when giving a specific drug to older adults, children, or pregnant/lactating women.
