4100U Cabinets are Available with
One, Two or Three Bays

Software Feature Summary

CPU provides two on-board configuration programs:

- Two programs allow for reduced service programming time with one active program and one reserve
- Downtime is reduced because the system stays running during download

PC based programmer features:

- Convenient front panel access port for quick and easy download of site-specific programming
- Modifications can be **uploaded** as well as downloaded for greater service flexibility
- **AND**, firmware enhancements are made via software downloads to the EPROM – service personnel are not required to exchange board level components

Introduction

Building on the established success of the 4100 Series products, the 4100U Series offers additional operation, installation, and service features. These new features include both new hardware and new software designs that provide high performance and convenient operation, installation, and maintenance. (Additional features are found in documents referenced on page 7.)

Module Bay Description

4100U Control Panels provide point and module capacities that are suitable for a wide range of small to medium size applications. They accept a variety of interface modules and can be configured for either Stand-Alone or Networked fire control panel operation.
