have finally gone their separate ways Spock McCoy Sulu and the others are spread out across the galaxy pursuing their own individual destinies until an interstellar crisis touches all their lives Bored with retirement Kirk jumps at the chance to help his nephews colonise a distant uninhabited planet in a far corner of the Alpha Quadrant He even persuades Scotty and Chekov to come along for the ride But on the planet known as Sanctuary colonists find they are not alone after all An unknown alien race has established an outpost there for their own mysterious reasons Suspicious Kirk investigates and uncovers a terrifying threat that strikes at the security of the entire Federation *Late Star Trek* Adam Kotsko, 2025-03-25

How Star Trek's twenty first century reinventions illuminate the unique challenges and opportunities of franchise style corporate storytelling *Late Star Trek* explores the beloved science fiction franchise's repeated attempts to reinvent itself after the end of its 1990s golden age Beginning with the prequel series *Enterprise* Adam Kotsko analyzes the wealth of content set within Star Trek's sprawling continuity including authorized books the three Kelvin Timeline films and the streaming series *Discovery* *Picard* *Lower Decks* *Prodigy* and *Strange New Worlds* along with fan discourse to reflect on the perils and promise of the franchise as a unique form of storytelling Significantly including the licensed novels and comic books that fill out the Star Trek universe for its fans Kotsko brings the multiple productions of the early twenty first century together as a unified whole rather than analyzing them in their current stratified view He argues that the variety of styles and approaches in this tumultuous era of Star Trek history provides the perfect opportunity to reflect on the nature of the franchise storyworlds that now dominate popular culture By taking the spin offs and tie ins seriously as creative attempts to tell a new story within an established universe *Late Star Trek* highlights creative triumphs as well as the tendency for franchise faithfulness to get in the way of creating engaging characters and ideas Arguing forcefully against the prevailing consensus that franchises are a sign of cultural decay Kotsko contends that the Star Trek universe exemplifies an approach to storytelling that has been perennial across cultures Instead he finds that what limits creativity within franchises is not their reliance on the familiar but their status as modern myths held not as common cultural heritage but rather owned as corporate intellectual property Retail e book files for this title are screen reader friendly with images accompanied by short alt text and or extended descriptions *Star Trek: Voyager: Farther Shore* Christie Golden, 2010-04-01 When an unstoppable Borg plague breaks out upon Earth blame quickly falls on the newly returned crew of the Starship *Voyager* Did Kathryn Janeway and the others unknowingly carry this insidious infection back with them Many in Starfleet think so and Seven of Nine in particular falls under a cloud of suspicion Now with a little help from the Starship *Enterprise* Admiral Janeway must reunite her crew in a desperate last ditch attempt to discover the true source of the contagion and save Earth itself from total assimilation into a voracious new Borg Collective But time is running out Has *Voyager* come home only to witness humanity's end ***Star Trek: Voyager: The Eternal Tide*** Kirsten Beyer, 2012-08-28 As the search for remnants of the Borg or Caeliar begins Fleet Commander Afsarah Eden begins to encounter artifacts and places that make her feel

connected to her long lost home feelings that could compromise her mission      **To Lose the Earth** Kirsten Beyer,2020-10-13 The long awaited follow up to Voyager Architects of Infinity from the New York Times bestselling author and cocreator of Star Trek Picard As the crew of the Full Circle fleet works to determine the fate of their lost ship the Galen a struggle for survival begins at the far edge of the galaxy New revelations about Species 001 the race that built the biodomes that first drew the fleet to investigate planet DK 1116 force Admiral Kathryn Janeway to risk everything to learn the truth
