The Great Shift Psycho-spiritual Manual for Survival and Transformation in the Trump Era Melinda

Contreras-Byrd, 2018-10-19 This book is a US based prophetic themed race and culture focused work which will serve to foster discussion on several important topics for Christians seeking to live out their faith in this present socio political era. The foundational belief underlying this book is that we are living in an era of unique possibilities for the church to begin to make second order changes in our views of Christianity, the church universal and the real life applications of theological concepts of evil and spiritual warfare as they apply to the struggles of this time in history. For Black people in the United States, racism has long been the elephant in the room during most Black White interactions on any level. Growing expressions of racism have now forced the elephant not only to the forefront of White discourse but the elephant now sits comfortably at the altar railing of both Black and White church sanctuaries. This book argues that we are at a critical time for action and gives suggestions for what at least some of those educational, theological and psychological actions could be. **The**

book offers a paradigm shift in thinking from binary to complex and enables visibility for the intersectionality of multiple identities that range from privileged to oppressed. For example, real people's heterogeneous racial identities within the same racial group are visible. A paradigm shift in learning from conceptual to transformative connects conceptual learning, cognition to their experience. Affect transformation does not simply emerge due to the individual's awareness but is experienced. Benetka Joerchel 2016 p 22. Uncensored first person subjective written responses to specific questions to access unconscious and implicit bias will connect the writer's experience to conceptual learning of diversity, equity and inclusion.

Writing in third person objective interrupts the transformative aspect by bypassing the accessibility of inner experience
 Writing in first person connects the writer to their experience which allows the unconscious to be accessed if it is practiced on a regular basis This book is for everyone who wants to implement diversity equity and inclusion measures by learning to access their unconscious bias Understanding social justice and equity and good intentions alone do not lead to accessing unconscious bias

Passionate Work Renyi Hong, 2022-04-04 In Passionate Work Renyi Hong theorizes the notion of being passionate about your work as an affective project that encourages people to endure economically trying situations like unemployment job change repetitive and menial labor and freelancing Not simply a subject of aspiration passion has been deployed as a means to build resilience and mend disappointments with our experiences of work Tracking the rise of passion in nineteenth century management to trends like gamification coworking and unemployment insurance Hong demonstrates how passion can emerge in instances that would not typically be understood as passionate Gamification numbs crippling boredom by keeping call center workers in an unthinking suspensive state pursuing even the most banal tasks in hope of career advancement Coworking spaces marketed toward freelancers combat loneliness and disconnection at the precise moment when middle class sureties are profoundly threatened Ultimately Hong argues the ideal of passionate work sustains a condition of cruel optimism in which passion is offered as the solution for the injustices of contemporary capitalism
