Crossing Textual Boundaries in International Children's Literature Lance Weldy, 2011-01-18 As the first part of the title indicates my interest in looking at intertextuality and transformation still maintains a prominent place throughout this book as well If we believe that no text is an island then we will understand that the relationships between and within texts across the years become a fascinating place for academic inquiry I included the word boundaries into the title because we never get tired of voicing our opinions about texts which traverse relegated boundaries such as genre or medium Not only am I interested in discussing what these changes across boundaries mean socially historically and culturally but also what they mean geographically which accounts for the second part of my title I am very excited that this book will be placing even more emphasis on children's literature in an international scene than my first book did in the sense that I have added more scholars on an international level I hesitate to list the nationalities of all of the contributors here because quite a few have themselves crossed international boundaries in different ways by either studying abroad or finding permanent residency in foreign countries Nevertheless the writers have lived extensively in or identify as being from Australia Canada England Finland Germany Greece Iceland Ireland Israel Norway Spain Sweden Turkey the United States of America and Wales

From Colonialism to the Contemporary Lance Weldy,2006 The compilation of this book has been carefully constructed to convey the essence of its title From Colonialism to the Contemporary Intertextual Transformation in World Children s and Youth Literature In other words the different chapters have been selected and ordered to illustrate the chronological effects surrounding the phenomenon of Children TM s and Youth Literature While this selection of essays as a whole does not seek to provide an exhaustive historical analysis of literature surrounding and written for children it does seek to highlight several points in time that will give the reader a sound understanding of certain shifts in ideology found in children TM s literature Furthermore the focus of this book is multivalent and interconnecting While historically tracing a few texts from around the world along a timeline this book also seeks to convey the transformative and intertextual nature of these respective texts thereby revealing that children TM s literature is not an isolated genre but instead one that conveys and is subject to all the same ideologies as other genres of literature Furthermore it is important to note that these chapters highlight texts from around the world as the title expresses Therefore the reader can see how audiences have responded to and transformed texts pertaining to such countries as India the United States and the United Kingdom as well as regions like Western Europe and Scandinavia Meta narratively speaking this book also reflects the multinational nature and audience of this book with contributing scholars writing from and representing various parts of the world Most importantly the thread that ties all of these topics together is Transformation
