Identifying Effective Promotion Strategies for Small Retail Business in the State of Nevada Dr. Charles O. Usigbe, 2013-04-05. Small businesses are the backbone of any economy. Although big transnational firms are associated with economies of scale, efficiencies, prestige, and good pay scales, it is the small firms that are the largest employers in terms of numbers and are known for their flexibility and responsiveness in meeting consumer demands. This research focuses on seeking out promotional strategies that can help small businesses in Nevada, which is a hub for small businesses in America. In order to find suitable strategies that can enable small businesses to compete in an industry that has come to be dominated by big firms, a multiple case study method has been used. The multiple case study method has helped to determine useful strategies that small firms can use in competing in the retail industry, an industry that has come to be dominated by the big players. An in-depth study of multiple cases that are focused on the state of Nevada has yielded that small businesses face many issues that are in-house that need to be resolved before the businesses embark on a journey to market themselves better.
