

### Sample Scholarship Essay: Field of Study

For more people, the future is uncertain; the direction their life will take is not spelled out for them. Each person is responsible for the choices she will make that will determine the course of her life. One of the choices that has an incredible impact on her life is what she will choose for her career.

This can be a difficult decision to make, as it will affect almost every aspect of a person's life to some degree. Most people are also not fortunate enough to receive a startling revelation directing them on the right course for their lives. Instead, the most powerful way that a person is able to determine her direction is not through an earthshaking revelation but through the quiet confidence that this is what she is called to do and to be.

In the same way, I have never received any startling revelations that I should pursue a career in journalism, but as I look back on my life, I am able to see that there were many little steps along the way that have led me to this choice. I have often heard my parents tell the story of how, on my first day of kindergarten, I came home crying because I had not been taught how to read. I have always loved to read and from that has developed a great respect and fascination for the written word.

Joseph Pulitzer stated the purpose of a journalist should be to "Put it before them briefly so they will read it, clearly so they will appreciate it, picturesquely so they will remember it, and above all, accurately so they will be guided by its light." His words serve as a reminder for me of the many different dimensions of writing. Journalism encompasses both creativity and technicality. It is a way of expressing individuality and of communicating with others.

Many of my personal qualities convince me that a career in journalism is my calling. I find that I am a person who responds well to challenges. Perhaps it is because of my competitive nature that challenges motivate me. And I discover that my biggest competitor is usually myself. I think this is why I enjoy trying to combine both the creative and technical aspects of writing. Each time I begin to write, I am presented with a fresh challenge.
