

Case Study: Starting Right Corporation

Case Study: Starting Right Corporation

Question 1

Sue Pansky should not try to be involved in the starting right because she has got a risk avoider nature and conservative while an entrepreneur can never be a risk avoider, instead entrepreneur dare to take risk for the new start up with broader view of vision. There are also four alternatives first alternative is to do nothing, invest in preferred stock, invest in corporate bonds and invest in common stock. For the investment of \$30,000 there are four alternatives over the period of 5 year.

Alternative	Profit (13% return)	Guaranteed Return
Alt. 1 – Corporate Bonds (13%)	\$25,273.05 (Profit Favorable Market)	\$20,000 (Profit Favorable Market)
Alt. 2 – Preferred Stock	+ \$90,000 (400%)	–\$15,000 (–50%)
Alt. 3 – Common Stock	+ \$210,000 (800%)	–\$30,000 (–100%)
Alt. 4 – Not Investing (4.5% inf.)	+ \$7,385.46	+ \$7385.46

From this case and figures, it has been analyzed that Sue Pansky is a risk avoider and very conservative in nature. So it is recommended that they she should make use of the utmost decision approach. She should not make an investment in Starting Right. I would recommend that Sue Pansky should invest in corporate bonds for the reason that her investment of \$30,000 is protected to the degree of \$20,000 while this amount has been guaranteed by Julia whereas; she attains a steady income at the rate of 13 percent per year.

Question 2

Ray Cahn should take an aggressive start up in the baby food business because he has a good experience in conducting business and have a good knowledge about the trading and business tactics. He can deal with the adverse or sudden situations in the business as he has been working in a business environment and experience in the public and supplier dealing associated in the business. Moreover, he has got an optimistic nature as he views the business success to be 11% and this estimation could be based on his prior market survey or personal knowledge. Being a commodities broker, Ray has got better knowledge about the financial funding systems and their appropriateness which is necessary for Starting Right.

Question 3

According to my recommendation, Lila Battle should not attempt in investing in Starting Right because of her risk avoiding and conservative nature. The business of Starting Right requires an open vision and perspective for the solutions and higher ability of risk taking. This is because the initial investment of the business requires effective and innovative method of financial funds collection that can minimize the risk of failure of the business and these fund collection methods could be risky and uncertain due to their innovativeness. On the other hand, Lila has got a positive view as she considers that Julia has got good chances of success, which is a good characteristic in
