Edition GMAC Official Guide Portals Amy Catania Kulper, Kevin Crouse, Jennifer Liese, 2021-11-11 Portals Pedagogy Practice and Architecture's Future Imaginary considers the COVID 19 pandemic and the remote pedagogy it occasioned globally in schools of architecture as a critical threshold to future architectural pedagogy practice and spatial imaginaries. Given that the conceit of a return to normal is neither desirable nor possible, this book speculates upon possible futures for the discipline of architecture through the lens of the Thesis and Directed Research projects of the RISD Architecture class of 2020. This book documents an interregnum, a pause, a moment of self-reflection in which architects imperiled by the COVID 19 pandemic and all of the forms of inequity that this global crisis surfaced confronted remote architectural pedagogy and practice as a critical threshold for the future imaginary of the discipline. The renowned group of architects, educators, theorists, critics, and curators assembled in this volume provide critical insights into the future of architectural pedagogy utilizing the thesis and design research projects of the RISD Architecture class of 2020 as exemplars of the transformations currently taking place in the field. This volume considers the forms that architectural activism and advocacy take in a moment when architects are critically reexamining the conventions of their practice and the question of which constituencies they serve.
