Stata User's Guide Stata Corporation, 2003 **Horizontal Inequalities, Political Environment, and Civil Conflict** Gudrun Østby, 2007 Several studies of civil war have concluded that economic inequality between individuals does not increase the risk of internal armed conflict This is perhaps not so surprising Even though an individual may feel frustrated if he is poor compared with other individuals in society he will not start a rebellion on his own Civil wars are organized group conflicts not a matter of individuals randomly committing violence against each other Hence we should not neglect the group aspect of human well being and conflict Systematic inequalities that coincide with ethnic religious or geographical cleavages in a country are often referred to as horizontal inequalities or inter group inequalities Case studies of particular countries as well as some statistical studies have found that such inequalities between identity groups tend to be associated with a higher risk of internal conflict But the emergence of violent group mobilization in a country with sharp horizontal inequalities may depend on the characteristics of the political regime For example in an autocracy grievances that stem from group inequalities are likely to be large and frequent but state repression may prevent them from being openly expressed This paper investigates the relationship between horizontal inequalities political environment and civil war in developing countries Based on national survey data from 55 countries it calculates welfare inequalities between ethnic religious and regional groups for each country using indicators such as household assets and educational levels All the inequality measures particularly regional inequality are positively associated with higher risks of conflict outbreak And it seems that the conflict potential of regional inequality is stronger for pure democratic and intermediate regimes than for pure autocratic regimes Institutional arrangements also seem to matter *The 1998 High School Transcript Study User's Guide and Technical Report* Stephen Roey, Eyal Blumstein, Jacqueline Haynes, Judy Kuhn, Keith Rust, Mark Waksberg, Nancy Caldwell, Stan Legum, Tom Krenzke, 2001 The 1998 High School Transcript Study provides the U S Department of Education and other educational policymakers with information regarding current course offerings and students course taking patterns in U S secondary schools Similar studies were conducted in 1982 1987 1990 and 1994 This guide documents the procedures used to collect and summarize the data It also provides information needed to use all publicly released data files produced by the study In previous years the information in this technical report was reported in two documents the Data File User's Manual and the Technical Manual The report contains these sections 1 Introduction to the High School Transcript Study 2 Background Sample Design 3 Selection of Primary Sampling Units Schools and Students for the 1998 High School Transcript Study 4 Data Collection Procedures 5 Data Processing Procedures 6 Weighting and Estimation of Sampling Variance and 7 1998 High School Transcript Study Data Files Fifteen appendixes provide supplemental information including the questionnaires and the code books for the study's individual files Contains 32 tables 3 figures 15 exhibits and 16 references SLD **Territoriality, Citizenship and Peacebuilding** Kelechi A. Kalu, 2013-06-29 Civil conflicts in Africa range from few

interstate wars to several intrastate conflicts characterized by secessionist movements irredentism coups and counter coups genocide wars of liberation to resource based wars The varied causes of conflicts in the continent s diverse and complex social formations are seen in ethnic terms and include struggles for economic environmental resources poor institutions of governance and issues of identity such as religion language and racial differences The core issue addressed in this volume is how to understand and explain the structural and analytical reasons for persistent civil conflicts in Africa The core assumption is that most civil conflicts in Africa erupt largely because of the nature of state formation in the continent Other significant variables that are explored as explanations for the persistent instances of civil conflicts in sub Saharan Africa and the slow efforts at nation building across the continent include issues of territoriality climate change ethnicity ideological incongruities institutional problems the nature of postcolonial state unreformed governance and economic structures and corruption This book also examines some sources of unresolved issues of territoriality and explains their connections to political violence and socio political and cultural tensions across sub Saharan Africa It offers suggestions on how scholarly research and policies could help mediate if not mitigate future territorially based conflicts in Africa

Horizontal Inequalities and Conflict F. Stewart, 2016-01-22 Drawing on econometric evidence and in depth studies of West Africa Latin America and Southeast Asia this book explores how horizontal inequalities ethnic religious or racial are a source of violent conflict and how political economic and cultural status inequalities have contributed Policies to reverse inequality would reduce these risks

Reids compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Stata 1user Guide : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and gripping novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
