Early Modern Constructions of

Europe Florian Kläger, Gerd Bayer, 2016-02-12 Between the medieval conception of Christendom and the political visions of modernity ideas of Europe underwent a transformative and catalytic period that saw a cultural process of renewed self definition or self Europeanization The contributors to this volume address this process analyzing how Europe was imagined between 1450 and 1750 By whom in which contexts and for what purposes was Europe made into a subject of discourse Which forms did early modern Europes take and what functions did they serve Essays examine the role of factors such as religion history space and geography ethnicity and alterity patronage and dynasty migration and education language translation and narration for the ways in which Europe turned into an imagined community The thematic range of the volume comprises early modern texts in Arabic English French German Greek Italian Latin and Spanish including plays poems and narrative fiction as well as cartography historiography iconography travelogues periodicals and political polemics Literary negotiations in particular foreground the creative potential versatility and agency that inhere in the process of Europeanization as well as a specifically early modern attitude towards the past and tradition emblemized in the poetics of

the period There is a clear continuity between the collection's approach to European identities and the focus of cultural and postcolonial studies on the constructed nature of collective identities at large the chapters build on the insights produced by these fields over the past decades and apply them from various angles to a subject that has so far largely eluded critical attention This volume examines what existing and well established work on identity and alterity hybridity and margins has to contribute to an understanding of the largely unexamined and under theorized pre formative period of European identity

Death and the Maiden Brigid Burke, 2019-05-01 America was certainly the big winner of World War II being the last major country intact Euphoria hubris and a naive self confidence became hallmarks of the people This hubris was dented a bit in the 1950s when scandals erupted around the TV quiz shows that made everyone feel so smart and the U 2 spy incident of 1960 that revealed Americans were being lied to by the government The book argues that these two events began the credibility gap that engulfed the nation later in the 1960s and continues to haunt us to this day When the War ended the United States still had its economy infrastructure and industry intact Taking up where the British Empire left off the powerful new America expanded its influence around the globe Suddenly light years ahead of any competitor Americans abandoned themselves to a haze of consumerism and entertainment trusting that they were safe and could not be harmed The contestants on the big money quiz shows turned out to be fakes and the respected TV executives were also revealed to be liars and cheats Far worse was yet to come The United States government was caught in a lie regarding the CIA's U 2 reconnaissance planes overflying the Soviet Union On the eve of a crucial summit meeting in 1960 the USSR knocked Gary Powers out of the sky along with plenty of incriminating hardware and data Moscow delayed revealing what it knew and Washington spent ten days denying it was a spy plane then denying that President Eisenhower was aware of it The world was turning into a very scary place and soon American schoolchildren were being taught to duck under their desks if a bomb should strike Fear began to percolate into the heart of the nation

Dorian Graying Robert Kastenbaum, 2020-11-25 In his latest and perhaps most adventuresome book Robert Kastenbaum offers a fresh view of the quest for perpetual youth The focus is

on the pretty monster that Oscar Wilde created a century ago in *The Picture of Dorian Gray* We see Dorian first within the frame of his own times responding to the pressures of modernization by attempting to escape the natural progression of time Next we enter Dorian the Opera a re imagining of his quest in the postmodern world of interactive computers Finally we observe Dorian's obsession and plight in our own graying society This insightful analysis of the dangers inherent in becoming terminally young also provides a set of propositions worth consideration by gerontologists educators philosophers media mavens and policy makers

Wisdom Trevor Curnow, 2015-05-15 There's no fool like an old fool the saying goes What is it about wisdom that sets it apart from mere intelligence What is that elusive difference between a simple grasp of the facts and profound understanding Wisdom has fascinated the human race for thousands of years philosophers are notorious for being in love with it and for centuries writers have tried to capture its essence in proverbs and fables In this book Trevor Curnow provides an accessible introduction to wisdom and the many ways we have thought about and tried to achieve it throughout history Drawing on examples from a diversity of eras and places from ancient Egypt to medieval Europe to modern Africa Curnow explores the ways we have sought to overcome the problems posed by our existence such as love and death with a steadfast wisdom He shows how many cultures have attributed wisdom to deities such as Apollo Odin and Sarasvati and how especially we have placed it within the vehicle of the proverb which has safeguarded its lessons throughout time and across cultures Including a collection of one hundred sayings that offer a rich record of wisdom's reification this history gives new insight into what wisdom actually is and where we might find it

John Stewart of Baldynneis Roland Furious Donna Heddle, 2007-11-30 The poetry of John Stewart of Baldynneis one of James VI's *soi disant* Castalian Band is a relatively unknown phenomenon of the Renaissance period This book is a critical edition of his epic poem *Roland Furious* supposedly a translation of Ludovico Ariosto's *Orlando Furioso* into Scots but actually a brilliantly original poem which directly follows guidelines given by James VI for the creation of such literature in the Scottish vernacular A fully annotated version of the text is given along with a critical induction discussing the main European influences on Stewart's work notes to the text an appendix of proper and personal names and a full glossary This book provides an important link in the history of Scottish poetry Brill's *Texts and Sources in Intellectual History* vol 4

Battle Lines Eliza Richards, 2018-12-28 During the U S Civil War a combination of innovative technologies and catastrophic events stimulated the development of news media into a central cultural force Reacting to the dramatic increases in news reportage and circulation poets responded to an urgent need to make their work immediately relevant to current events As poetry's compressed forms traveled more quickly and easily than stories novels or essays through ephemeral print media it moved alongside and engaged with news reports often taking on the task of imagining the mental states of readers on receiving accounts from the war front Newspaper and magazine poetry had long editorialized on political happenings Indian wars slavery and abolition prison reform women's rights but the unprecedented scope of what has been called the first modern

war and the centrality of the issues involved for national futures generated a powerful sense of single mindedness among readers and writers that altered the terms of poetic expression In *Battle Lines* Eliza Richards charts the transformation of Civil War poetry arguing that it was fueled by a symbiotic relationship between the development of mass media networks and modern warfare Focusing primarily on the North Richards explores how poets working in this new environment mediated events via received literary traditions Collectively and with a remarkable consistency poems pulled out key features of events and drew on common tropes and practices to mythologize commemorate and ponder the consequences of distant battles The lines of communication reached outward through newspapers and magazines to writers such as Dickinson Whitman and Melville who drew their inspiration from their peers poetic practices and reconfigured them in ways that bear the traces of their engagements
