Perspectives on Student Affairs in South Africa McGlory Speckman, Martin Mandew, 2014-07-17 The goal of *Perspectives on Student Affairs in South Africa* is to generate interest in student affairs in South Africa. The papers contained herein are based on best practice local experience and well researched international and local theories. The papers in this book deal with matters pertaining to international and national trends in student affairs, academic development, access and retention, counselling and material support for students coming from disadvantaged backgrounds. They are linked to national and international developments as described in the first two papers. This publication will assist both young and experienced practitioners as they grow into their task of developing the students entrusted to them. All contributors are South Africans with a great deal of experience in student affairs and all are committed to the advancement of student affairs in South Africa. The editors are former heads of student affairs portfolios at two leading South African universities.

Creating the New African University, 2023-05-25 *Creating the New African University* grapples with the existence of African universities, particularly in post-independent Africa, where Higher Education Institutions (HEIs) are supposed to live up to the expectations of being adaptive in dealing with prevalent complex dynamic contemporary and future challenges facing African societies. The book tackles the issue of what ought to be done for African universities to maintain a structure and identity that ensures their relevance in Africa's development through generating and transforming knowledge into actions for the common good. It engages issues within the context of how post-colonial transformative obligations have been managed in light of the prevalent epistemological and pedagogical underpinnings that form the foundations of these universities as they seek to break from the clutches of colonial legacies. This book further highlights an urgent need to do away with silos and embrace a multidisciplinary, interdisciplinary, transdisciplinary and cross-disciplinary dialogical approach towards knowledge generation. Such an approach is essential in efforts aimed at enhancing the sustainable reconfiguration of university structures and functions whilst linking knowledge produced to diverse social, economic and political facets of African societies in ways that promote and sustain competitiveness in a rapidly globalising world beset with technological advancements.

Reflections of South African Student Leaders: 1994 to 2017 Ntokozo Bhengu, Denyse Webbstock, 2020-05-13 *Reflections of South African Student Leaders 1994-2017* brings together the reflections of twelve former SRC leaders from across the landscape of South African universities. Reviews of the previous volume (1981-2014) suggested that it contributed significantly to a better understanding of the stringent demands of visionary and transformative leadership required by university leaders in the fast-changing and increasingly complex public higher education sector. This volume is based on comprehensive interviews with former student leaders, each of whom provided a personal account in their own words of their experience in the position of student leadership. The interviewees are from different backgrounds and of diverse political persuasions. The book is important for current and future leaders of higher education institutions as it provides insights into the thinking, aspirations

desires fears and modus operandi of student leaders Such insight can contribute to developing and implementing appropriate strategies for achieving meaningful and constructive engagement with current and future student leaders *Legal pedagogy, practice and curriculum transformation: What does the future hold and look like?* Charles Maimela ,2025-07-18 In an era marked by rapid technological innovation and complex socio political shifts legal education stands at a critical crossroads This timely publication explores the imperative for a curriculum that is both responsive and resilient capable of adapting to the evolving needs of students institutions and society at large Blending theoretical analysis with practical insight the book offers forwardthinking strategies to navigate the multifaceted challenges of curriculum transformation Drawing on the lived experiences and reflections of law educators across diverse institutions it provides a unique lens into how curriculum innovation can enhance teaching learning and research in the legal academy More than a commentary this book is a call to action a vital resource for educators academic leaders and policymakers committed to ensuring the continued relevance excellence and social responsiveness of legal education in the 21st century [Dielectric Spectroscopy in Biodiesel Production and Characterization](#) Silvia Daniela Romano,Patricio Aníbal Sorichetti,2010-11-30 Dielectric Spectroscopy in Biodiesel Production and Characterization presents the application of dielectric techniques in the production process of biodiesel and in the characterization of biofuels raw materials and effluents In this comprehensive text the reader will find information about biodiesel production processes and biofuel characterization including a description of dielectric techniques that are a useful alternative to and have some important advantages over international standards Dielectric Spectroscopy in Biodiesel Production and Characterization is written in a language that is easy for both specialists and non specialists to understand It provides the concepts and tools needed for the application and correlation of the results of dielectric measurement with those from other techniques that are included in international standards Aimed at a broad audience the book gives a unified presentation in a clear and concise way of up to date information that has been gathered from a wide range of sources Based on the ample research and teaching experience of the authors Dielectric Spectroscopy in Biodiesel Production and Characterization will be of interest to professionals working in the liquid biofuels industry researchers entering the field and also advanced university students on related courses **Democratizing Higher Education Policy** M.T.
